Hospital Reproductive Health Services

In accordance with 2SSB 5602 (Laws of 2019), the purpose of this form is to provide the public with specific information about which reproductive health services are and are not generally available at each hospital. Please contact the hospital directly if you have questions about services that are available.

An acute care hospital may not be the appropriate setting for all reproductive health services listed below. Some reproductive services are most appropriately available in outpatient settings such as a physician office or clinic, depending on the specific patient circumstances.

The following reproductive health services are generally available at the above listed hospital:

**Abortion services**
- ☑️ Medication abortion
- ☑️ Referrals for abortion
- ☐ Surgical abortion

**Contraception services**
- ✔️ Birth control: provision of the full range of Food and Drug Administration-approved methods including intrauterine devices, pills, rings, patches, implants, etc.
- ☑️ Contraceptive counseling
- ☐ Hospital pharmacy dispenses contraception
- ☑️ Removal of contraceptive devices
- ☑️ Tubal ligations
- ☐ Vasectomies

**Emergency contraception services**
- ☐ Emergency contraception - sexual assault
- ☐ Emergency contraception - no sexual assault

**Infertility services**
- ☐ Counseling
- ☐ Infertility testing and diagnosis
- ☐ Infertility treatments including but not limited to in vitro fertilization

**Other related services**
- ✔️ Human immunodeficiency virus (HIV) testing
- ✔️ Human immunodeficiency virus (HIV) treatment
- ✔️ Pre-exposure prophylaxis (PrEP), post-exposure prophylaxis (PEP), prescriptions, and related counseling
- ✔️ Sexually transmitted disease testing and treatment
- ✔️ Treatment of miscarriages and ectopic pregnancies

**Pregnancy-related services**
- ✔️ Counseling
- ☐ Genetic testing
- ✔️ Labor and delivery
- ✔️ Neonatal intensive care unit
- ☐ Prenatal care
- ☐ Postnatal care
- ✔️ Ultrasound

**Comments; limitations on services; other services**

UW Medicine is an integrated health system that includes four hospitals: Harborview Medical Center (Harborview), Valley Medical Center, Northwest Hospital & Medical Center, and University of Washington Medical Center. As an integrated health system, the four hospitals work together to provide access to a full range of reproductive healthcare services to meet patients’ clinical needs and reproductive choice.

Contraception in the hospital is available for emergent treatment of heavy bleeding, but not for routine contraception (that is done in the outpatient setting). In addition, contraceptive device removal would be done for urgent concerns/complications (infection, heavy bleeding); but not routinely. Emergency contraception is available over the counter; and generally not prescribed at the hospital.
