

## On-Site Rule Revision Issues List

### Technical Subcommittee Issue List

|                        |   |
|------------------------|---|
| Design Requirements    | Change septic tank minimum to 1000 gallon<br>Pump chamber sizing<br>Tank sizing requirements w/low flow fixtures<br><b>Requirement for designs which facilitate O&amp;M</b><br><b>Minimum lot size and land area</b><br><b>Flow splitting</b><br>Clarification between -0230 minimum land area per unit vol of sewage & Table X minimum lot size<br><b>Waivers; mitigation based and considered only if property unable to conform with minimum rules</b> |
| Repairs                | Repairs, Table VI vs Table IX vs expansions<br>Repair of failures, remediation and new treatment technologies   |
| Setbacks               | Setbacks between OSS & stormwater retention structures<br>Setbacks with new treatment technology<br>Setbacks to ponds, ditches  |
| Waste Types            | Prohibited Waste Types  |
| Technology Application | UV disinfection<br>Proprietary product field testing<br>Bacterial reduction product testing<br>Proprietary gravelless product registration<br>Subsurface dripline with public domain at-grade products  |
| Treatment Requirements | Treatment levels<br>Loading rates   |
| Nutrients              | Nitrogen/Phosphorus reduction, technology/requirements<br>Method 2: nitrogen loading and removal  |
| Other                  | Requirement for trench bottom to be level (+/- 0.5 in)  |

## Policy Subcommittee Issue List

|                  |  |
|------------------|--|
| Service Provider | O&M service provider licensing<br>O&M and installer responsibilities for development of O&M<br>Secure Tank Riser Lid |
|------------------|--|

|                  |   |
|------------------|---|
| Management Plans | Local management plans<br>Property transfer inspections |
|------------------|---|

|       |   |
|-------|---|
| Other | Connection to public sewer<br><br>TAG & Policy Advisory Committee |
|-------|---|

Issues from Technical  
Workgroup that may  
require inter-workgroup  
effort

**Requirement for designs which facilitate O&M**

**Minimum lot size and land area**

**Flow splitting**

**Waivers; mitigation based and considered only if property  
unable to conform with minimum rules**

## DOH Issue List

### Definitions

Definition of daily use  
Definition of residential vs nonresidential  
Definition of adjacent to marine installations  
Detail in definition of floodway vs floodplain  
Definition of blackwater  
Definition of greasetrap  
Definition of low flow waste  
Improve "drainage areas" (i.e. land formations)  
description/definition

### Setbacks

Setback to geothermal loop  
Setback to suction line  
Setback to water storage tank

### Other

Tank abandonment

Soil logs number

Sustainable OSS infrastructure

LHJ jurisdiction on tribal lands (where tribe has no clear jurisdiction)
