Ten fingers, ten toes. What else do you need to know?

All Babies Need Newborn Screening

Talk to your health care provider about your baby’s screening tests.

When babies are screened early:
- Many treatable disorders can be identified from a simple drop of blood.
- Hearing loss and heart defects can be found.
- Babies can get needed treatment and services early in life to help them grow and develop.

For more information, visit our website at www.doh.wa.gov. Search keywords ‘newborn screening’ or ‘early hearing loss.’ Or call 1-866-660-9050.
