A survey to improve the health of babies and mothers in Washington State.
Questions Commonly Asked About PRAMS

What is PRAMS?

PRAMS (Pregnancy Risk Assessment Monitoring System) is a joint research project between the Washington State Department of Health and the Centers for Disease Control and Prevention (CDC). Our purpose is to find out why some babies are born healthy and others are not. To do this, our questionnaire asks new mothers questions about their behaviors and experiences around the time of their pregnancy. Each year in Washington there are hundreds of babies born with serious health problems. Many of these babies die. We need your help to find out why. No matter how your pregnancy went, your answers will help us learn more about ways to improve the chances for future mothers and babies in Washington.

Will my answers be kept private?

Yes all answers are kept completely private to the extent permitted by law. All answers given on the questionnaires will be grouped together to give us information on Washington mothers of newborn babies. Your answers will be used for research purposes only. Your answers may be shared only with a limited number of researchers who have signed confidentiality agreements with the Department of Health. The number on the survey lets us link your answers to your child’s birth record information and to other databases. In reports from this survey, no woman will be identified by name.

Is it really important that I answer these questions?

Yes! Because of the small number of mothers picked, it is important to have everyone’s answers.

Some of the questions do not seem related to health care. Why are they asked?

Many things in a mother’s life and pregnancy may affect her pregnancy. These questions try to get the best picture of the new mother’s health care and things that happened to her during pregnancy.

How was I chosen to participate in PRAMS?

Your name was picked by chance, like in a lottery, from the state birth certificate registry. You are one of a small number of women who were chosen to help us in this study.

What if I want to ask more questions about PRAMS?

Please call us at our toll-free number, 1-877-867-7267, and we will be happy to answer any other questions that you may have about PRAMS. If you prefer to complete the questionnaire over the telephone, please call us on the same number.
