The Department of Health thanks the agencies, organizations, and people who contributed to the development of the *Healthy Nutrition Guidelines and Implementation Guide*. The *Guidelines* are based on the U.S. Department of Agriculture’s (USDA) *Dietary Guidelines for Americans, 2010* (DGA 2010).

The *Guidelines* are also adapted from:

- **Public Health – Seattle & King County** Healthy Vending Guidelines
- **U.S. General Services Administration** Health and Sustainability Guidelines for Federal Concessions and Vending Operations
- **RAND Corporation** Performance Standards for Restaurants

**Food Procurement Workgroup Members**

- Lucy Asdourian, American Heart Association
- Valerie Baldisserotto, Public Health – Seattle & King County
- Brent Carney, Department of Corrections
- Victor Colman, Childhood Obesity Prevention Coalition
- Monica Dixon, Healthy Communities of Pierce County
- Zena Edwards, WSU Extension – Thurston County
- Becky Elias, Department of Agriculture
- Amy Ellings, Department of Health
- Jeanne Gallo, Department of Services for the Blind
- Lindsay Hovind, American Heart Association
- Gary Myers, Department of Services for the Blind
- Paj Nandi, Department of Health

Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Centers for Disease Control and Prevention.
Introduction

In October 2013, Governor Jay Inslee signed Executive Order 13–06: Improving the Health and Productivity of State Employees and Access to Healthy Foods in State Facilities. This requires state executive agencies to adopt and implement food service guidelines that meet the Department of Health’s Healthy Nutrition Guidelines (Guidelines).

The Department of Health’s Healthy Nutrition Guidelines follow the guidance of the 2010 United States Department of Agriculture’s Dietary Guidelines for Americans (DGA 2010). They set criteria to ensure that healthy options can be found in cafeterias, cafes, on–site retail venues, vending machines, meetings and events, and institutional food service. The Department of Health will update the Guidelines as necessary – at least every five years – to ensure that they remain current and science–based.

The Department of Health developed this implementation guide to support agencies and other organizations in the implementation of the Guidelines.

The Guidelines are based on the following guiding principles:

• Emphasize fruits, vegetables and whole grains.
• Minimize the use of processed foods that contain added sugar and sodium.
• Recommend use of healthy cooking techniques, such as baking, roasting, broiling, grilling, poaching, steaming, and stir frying. Recommend no use of deep fryers.
• Serve items in smaller portions if high calorie items are provided (e.g., mini muffins or 2–inch cookies), while still maintaining overall calorie and nutrient requirements.
• Work toward reducing overall sodium content.
Implementation plan checklist for agencies and sites

Use this checklist to adopt and implement the *Healthy Nutrition Guidelines*. All needed forms are available at [www.doh.wa.gov/choosewell-livewell](http://www.doh.wa.gov/choosewell-livewell). Agencies can work towards recognition for implementing the Guidelines (the Choose Well–Live Well Award) at the same time as working towards Washington Wellness’ Team WorkWell’s Zo 8 Award.

Healthy Nutrition Guidelines for Meetings and Events

Washington State supports healthy living by ensuring state facilities and agencies offer, purchase and serve healthy food and beverages. We are making the healthy choice the easy choice.

To meet the Healthy Nutrition Guidelines for Meetings and Events, choose foods and beverages that meet at least the Healthy standard. We encourage agencies to work toward meeting the Healthier and Healthiest standards.

Healthy

• Provide food and beverage options that are appropriate for the attendees’ dietary and cultural food needs.
• Provide water at breaks and meals – preferably tap water.
• Provide zero– and low–calorie beverage options when you serve beverages other than water.
• Serve fruit or vegetables with all light refreshments and meals.
• Choose foods that are low in fat – especially saturated and trans–fats.

Healthier

• Meet the Healthy standard.
• When you serve grains, make sure that whole grain rich options are available.
• When you serve dairy, make sure that low–fat or non–fat dairy options are available.
• When you serve proteins, make sure that lean meat and low–fat, non–meat protein options are available.
• Provide healthy portion sizes. For example, serve small or half bagels, 3 – 5 oz. servings of meat, and cakes and brownies in small serving sizes (2” square or smaller).

Healthiest

• Meet the Healthier standard.
• Provide at least one lower sodium option.
  • Lower sodium is 360mg of sodium or less per snack item, 480mg of sodium or less per individual food item as served, or 900mg of sodium or less per meal.
• Serve Washington grown foods when possible.
• Ask your caterer about providing local foods.
• Purchase foods from local farmers market.

Remember food safety standards when you serve food.

• Wash your hands before serving foods. Inadequate hand washing is a leading cause of foodborne disease.
• Keep hot foods hot and cold foods cold.
How to promote healthy choices for meetings and events

- Allow meeting and events participants to pre-order their meals. People tend to choose healthier meals when they pre-order.
- Use attractive, descriptive names for healthier foods items and regular titles for less healthy options.
- Use tall, skinny glasses or other containers to give illusion of more drink or food.
- Use smaller plates and bowls.
- Add any kind of non-fried, low-fat vegetable to meals.
- Offer more than one choice of healthier foods (fruits, vegetables, whole grains, low-fat dairy) and decrease the number of less healthy options. For example, provide one choice of dessert but several choices for fruits and vegetables.
- For potlucks, encourage attendees to bring food and beverage items that meet the Healthy Nutrition Guidelines. There are examples in the Recommended Foods and Beverages section (see pages R–7 and R–8). Examples include:
  - For desserts – small portion sizes
  - For condiments – low-sodium and low-fat options
  - For breads – whole grain breads
- If you’re having a buffet, put the healthier options at the beginning of the line and label food and beverage options that meet the guidelines.
- Display a poster on the food table to let your attendees know the nutritional importance of what is in their meal.
How to reduce sodium at meetings and events

Meeting planners
Tips for choosing low-sodium options

❑ Choose packaged products with no more than 10% of daily value of sodium per serving listed on their food label.

❑ Offer fresh vegetables rather than canned. If offering frozen vegetables, read the label to make sure they do not contain salt.

❑ Ask your caterer to prepare soups, salad dressings, dips and meat marinades from scratch to control sodium content.

❑ Offer lower sodium dairy products in 1 oz. serving sizes, and freshly roasted and cooked meats and fish rather than salted, cured, deli, or smoked meats and fish.

Caterers
Tips for delicious and healthy lower sodium cooking

❑ When making salad dressings, soups, sauces or marinades, use no more than 3/4 teaspoon of salt or 2 tablespoons of soy sauce in every 10-portion batch.

❑ Try using intensely flavored herbs, spices, low-sodium liquids and salt-free seasonings, such as vinegar, lemon juice, wine and fruit juices.

❑ Drain the liquid from and rinse canned foods.

❑ Use oil or unsalted butter instead of salted butter when possible.

❑ Be aware that baking soda, baking powder, monosodium glutamate (MSG), disodium phosphate, sodium alginate, sodium nitrate and nitrite all contain sodium.

❑ Roasted, grilled, broiled, baked, poached or steamed meats and fish are much lower in sodium than salted, cured, deli or smoked meats and fish.

❑ Make sauces, dressings, soups and condiments from scratch if possible, and serve dressings, sauces and condiments on the side.

❑ Be creative by adding low-sodium whole foods to processed products. For example, add diced fresh tomatoes or canned tomatoes with no salt added to canned tomato sauce or dilute low-sodium soy sauce with vinegar at a 1:1 ratio.
Meetings and events success story

The Combined Fund Drive (CFD) is Washington State’s workplace giving program for active and retired public employees. Every year, the Department of Health enjoys organizing a CFD event around the Apple Cup. We use the Apple Cup to spark some competition between Husky and Cougar fans, in the spirit of charity. The Apple Cup event gathers donations of warm clothes like coats, scarves and gloves for the community. The winner of the Apple Cup is the team that gathers the most donated items.

To kick-off the event, we organize a lunch fundraiser. The money raised from this lunch is donated to organizations in the community. In 2011, we served hot dogs, chips and soda. The lunch was somewhat successful – we were able to sell the meals for $3.

Between the 2011 and 2012 Apple Cup events, a new employee joined our CFD planning committee. She suggested we follow what are now the Healthy Nutrition Guidelines for Meetings and Events. We served homemade chili, baked potatoes, and steamed broccoli. The Apple Cup lunch was SO much more popular. We had more people attend, received more positive feedback than from previous years, and we even ran out of food! We were able to sell the meals for $5 each, which meant a greater donation to our community. We decided to donate all of the money raised in 2012 to organizations working with youth.

People were thankful for the home-cooked, healthy meal. Although it took a little more work than serving people hot dogs, the event attendees noticed the difference. And, most importantly, the change in menu allowed us to have a much more successful CFD event!
Applying for recognition

State executive agencies, worksites and vendors that would like to be recognized for their efforts implementing Executive Order 13-06: Improving the Health and Productivity of State Employees and Access to Healthy Foods in State Facilities, can apply for recognition. Other agencies and organizations who voluntarily adopt and implement the Guidelines, may also apply for recognition. All forms required to apply for recognition are available at www.doh.wa.gov/choosewell-livewell. Questions? Contact us at choosewell-livewell@doh.wa.gov.

Glossary

- **An entrée** is considered the main part of a meal. Examples include a sandwich, pizza or burger.

- **Healthier options** are fruits, non–fried vegetables, lean proteins, whole grain rich grains (excluding sweet baked goods), zero– or low–calorie beverages, water, or low–fat or fat–free milk.

- **Large food service venues** offer a large menu of options that are made in–house, such as hot entrées, grill items, salad bars, bakery items, deli stations, etc. A full–service cafeteria or conventional food service operation is an example.

- **Lean meats** are seafood or game meat products that contain less than 10g total fat, 4.5g or less saturated fat, and less than 95mg cholesterol per RACC (reference amount customarily consumed) per 100g.

- **Lower sodium** is 360mg of sodium or less per snack item, 480mg of sodium or less per individual food item as served, or 900mg of sodium or less per meal.

- **A meal** is a more complete offering intended for breakfast, lunch, or dinner that includes two or more items from recommended food groups served in combination. For example, a meal may include a lean meat, vegetable, fruit and whole grain bread.

- **Medium food service venues** typically offer a smaller number of menu options including premade or quick–to–make options, such as soups and sandwiches. Delis, cafés or food service operations with limited on–site preparation facilities are examples.

- **No added sugars** — FDA–recognized examples include: agave syrup, anhydrous dextrose, brown sugar, brown sugar syrup, confectioner’s powdered sugar, corn syrup, corn syrup solids, dextrin, dextrose, evaporated cane choice, fructose, high–fructose corn syrup (HFCS), honey, invert sugar, lactose, malt syrup, maltose, maple syrup, molasses, nectars (peach nectar, pear nectar), pancake syrup, raw sugar, sucrose, sugar, white granulated sugar.

  Added sugars not recognized by the FDA include: cane juice, crystal dextrose, evaporated corn sweetener, fruit–juice concentrate, fruit nectar, glucose, liquid fructose, sugar cane juice.

- **Small food service venues** offer only pre–made and pre–packaged options and the food is prepared off–site and brought in to the food service location. A grab–and–go venue is an example.

- **Sugar–sweetened beverages** include sodas, fruit drinks, sport drinks, iced teas and coffee drinks that contain added caloric sweeteners. These do not include low–fat or fat–free milk.

- **Whole grain rich** foods have at least 50% of the grain ingredients as whole grain. This can be determined by the product listing a whole grain as the first ingredient, from the manufacturer, or if the product has a whole grain stamp. Brown rice, whole grain rolls, corn tortillas, whole grain pasta, oatmeal or whole grain cereal are examples. Items which bear a whole grain stamp are whole grain rich.

- **Zero– or low–calorie beverages** include water and other beverages with no more than 25 calories per cup or container as offered for sale.

Sample meals that meet the Guidelines

Prepare recipes with less sodium, and choose pre-made products with no or low-sodium content.

**Breakfast**

- **Low-fat breakfast burrito bar:** Whole wheat flour or corn tortillas (low-fat), scrambled eggs, sautéed onions and peppers, fresh tomatoes, homemade salsa. Serve with fresh fruit tray.
- **Oatmeal bar:** Oatmeal with cinnamon, skim milk, raisins, almonds. Serve with assorted seasonal fruits.
- **Frittata:** Mushroom and spinach frittata. Serve with whole grain English muffin with jam and unsalted butter or trans-fat free margarine on the side, fresh cantaloupe wedge with purple grapes.

**Light Refreshments**

- Fresh fruit skewers or tray with low-fat yogurt dip.
- Raw vegetables with hummus dip and low-fat ranch.
- Individually packaged servings of baby carrots.
- Light popcorn and unsalted nuts.
- Low-fat granola bars and fresh fruit.
- Whole grain English muffins with peanut butter, low-fat cream cheese or hummus. Serve with whole fresh fruit or vegetables.
- Unsalted almonds with dried cranberries or raisins.
- Fresh pear slices with mozzarella and Swiss cheese slices.
- Trail mix made of dried fruit, roasted unsalted nuts and seeds.
- Parfait made with low-fat granola, low-fat yogurt and fruit slices.
- Quick bread (banana, pumpkin) in small slices. Serve with fruit spread, margarine (no trans-fats), hardboiled egg or whole fresh fruit.
- Fruit for dessert.

**Lunch and Dinner**

**Boxed lunch examples**

- **Chicken taco salad:** Grilled skinless chicken breast, lettuce, tomato, bell pepper, onion, homemade salsa, smashed avocado, low-fat sour cream. Serve with baked tortilla chips, fresh fruit, small cookie.
- **Boxed salad:** Leaf lettuce, sliced tomato, hardboiled egg, fresh raspberries, kidney and garbanzo beans, chopped spinach, diced red onion, shredded carrots, sliced mushrooms, roasted beets and sliced cucumber with low-fat dressing on the side. Serve with fresh fruit, whole grain roll, and unsalted almonds and sunflower seeds.
- **Grilled or roasted chicken sandwich:** Whole wheat or rye bread, lean roasted or grilled chicken breast, lettuce, tomato, avocado slices, mustard and low-fat mayonnaise on the side. Serve with baby carrots and fresh fruit.
• **Roasted vegetable and mozzarella wrap (vegetarian):** Marinated, roasted and chilled eggplant, red and yellow peppers, red onion, zucchini with part skim mozzarella cheese in a whole wheat wrap. Serve with unsalted nuts, cookie, whole fruit.

• **Hummus and pita (vegetarian):** Garbanzo bean spread, mozzarella cheese, tomato, onions, smashed avocado, lettuce on whole wheat pita bread. Serve with small salad, light salad dressing, whole fruit, small cookie.

• **Roasted vegetable wrap (vegetarian and vegan):** Marinated and roasted eggplant, red and yellow pepper, red onion, zucchini in a whole wheat wrap. Serve with unsalted nuts, dark chocolate square, whole fruit.

### Buffet lunch and dinner examples

• **Deconstructed burrito bar:** Grilled skinless chicken or lean pulled pork with vegetarian black beans, sautéed onions and peppers, steamed corn, low-fat cheddar cheese, brown rice, homemade salsa, smashed avocado, tomatoes, leaf lettuce. Serve with side salad with low-fat dressing, sorbet with berries.

• **Meat and potatoes buffet:** Baked or grilled fish, skinless chicken, beef, or pork (3–5 oz. portion) of with choice of oven-baked herbed potatoes or herbed wild rice, steamed mixed vegetables. Serve with green salad with low-fat dressing on the side, baked apples with vanilla low-fat frozen yogurt.

• Cheese in any form
• Cottage cheese, cream cheese, sour cream
• Yogurt, frozen yogurt, sherbet
• Ice cream and ice milk
• Half and half, whipping cream, coffee cream
• Pudding, custard
• Butter, including artificial butter flavor
• Ghee
• Margarine (unless labeled “dairy free” or Kosher)
• Casein and caseinates
• Whey
• Rennet
• Lactose and lactulose
• Lactalbumin and lactoglobulin
• Curd

Baked kale chips as a snack
Dry beans as an ingredient
Non–dairy fruit smoothie
Replacements for dairy products
• Low-sodium soy cheese
• Soy products, such as tempeh and tofu
• Soy, rice, lactose-free milk
• Low-sodium broth made from meat vegetable stock or tomatoes
• Vegan margarine

Gluten-free diet: Free of foods derived from gluten-containing cereals
Avoid sources of gluten
• Barley
• Beer
• Bran
• Brewer’s yeast
• Coloring
• Couscous
• Fillers
• Flavorings
• Flour (wheat)
• Graham flour
• Hydrolyzed plant protein
• Hydrolyzed vegetable protein
• Kamut
• Malt
• Matzo
• Mono- and diglycerides
• Monosodium glutamate (MSG)
• Pasta
• Rye
• Seitan
• Semolina
• Soy Sauce
• Spelt
• Spices
• Sprouted wheat or barley
• Teriyaki sauce
• Textured vegetable protein
• Triticale
• Udon
• Wheat
