Application Instructions Checklist

You should complete this application to obtain a renewable limited dental hygiene license. To qualify for licensure you must meet the following requirements:

- You have been issued an initial limited license.
- Provide verification of successful completion of an approved dental hygiene patient evaluation/prophylaxis clinical dental hygiene examination.
- Provide verification of successful completion of an approved local anesthesia examination.
- Provide verification of didactic and clinical competency in the administration of nitrous oxide analgesia.

All verification documentation must be received directly from the testing agency or educational institution. If the verification is not available electronically from the testing agency, the department will require you to request the scores from the examination company.

If the department has already received any of the required documentation with your initial limited dental hygiene license, you do not need to resubmit them.

Note: It is recommended that you submit the renewable limited license application, renewal fee and appropriate expanded functions verification documentation at least 90 days before your initial limited license expiration date.

**Important background check information:** Washington State law authorizes the Department of Health to obtain fingerprint-based background checks for licensing purposes. This check may be through the Washington State Patrol and the Federal Bureau of Investigation (FBI). This may be required if you have lived in another state or if you have a criminal record in Washington State. This would be at your own expense.

All information should be printed clearly in blue or black ink. It is your responsibility to submit the correct forms required.
