There are specific protocols and required documentation for each observation level. b. Reasons for these levels of awareness may include but are not limited to suicide risk, homicide risk, falls risk, potential for aggressive behavior and/or potential for sexually acting out behavior. c. The nurse should address the status of the patient on special precautions in the nursing reassessment documented each shift. Document review of the hospital's policy and procedure titled, "Sexual Acting Out (SAO)/Sexual Aggression Precautions," policy number POC 100.68, last reviewed 01/22, showed the following: a. Sexual Acting Out: A patient who has a clinically relevant history of sexually acting out, inappropriate, aggressive, or predatory behavior towards the opposite sex, as indicated in the Comprehensive Nursing Assessment, Intake information, or other reports. b. The Registered Nurse (RN) ensures that an individual treatment plan (ITP) for the Sexual Acting Out precautions is implemented. c. The RN reports the patient's behavior surrounding Sexual Acting Out precautions in the Shift Report.

State Form 2567

d. The RN documents in clinical notes each shift:

i. That the patient is on SAO precautions.

ii. Any pertinent patient comments regarding

Review of the medical records found that nursing staff failed to consistently document each shift any behaviors, interventions, and response to interventions for patients placed on SAO precautions. 4. On 11/17/22 at 3:45 PM, during an interview with Investigator #1, the Chief Clinical Officer (CCO) (Staff #1504) stated that if there is an ITP for enhanced safety precautions, such as SAO, staff should be documenting the patient's progress towards treatment goals. Staff #1504 stated that she was unsure if it was the nurse's responsibility to document updates for all the problems identified on the MTP Problem List. During review of the hospital's Sexual Acting Out (SAO)/Sexual Aggression Precaution Policy with Investigator #1, Staff #1504 verified that nursing staff was not always documenting the patient's status related to the enhanced precautions as directed by hospital policy.

On 11/14/22 the psychiatric provider wrote an order to add SAO precautions due to the Patient "being a predator to 13- and 14-year-old girls." d. Review of the Patient's treatment planning documents showed that staff failed to initiate an ITP for SAO, or create a plan of care, treatment goals, identify interventions, and monitor the Patient's progress towards the treatment goals. 11. On 11/17/22 at 11:15 AM, during an interview with Investigator #1, the Registered Nurse (RN) (Staff #1504) stated that if patients are involved in any sexual incidents or sexually inappropriate language, they should be on SAO precautions. The charge nurses will provide the treatment team with updates on the patient's behavior and progress towards treatment goals with these precautions. 12. On 11/17/22 at 3:00 PM, during an interview with Investigator #1, the Chief Clinical Officer (CCO) (Staff #1504) reviewed the incident reports (from 05/21 and 01/22 to present). Staff #1504 stated that on the incident reports reviewed, staff documented that the treatment plans had been reviewed and updated. Staff #1504 verified that the treatment plan updates and individual treatment plans for Patients #1502, #1504, #1505, and #1507 failed to include documentation of the documented sexually inappropriate incidents or recommendations for revisions to the treatment plan. STAFF EDUCATION RESULTS

Staff are not permitted to resume their assigned shift, until completion of education and attestation. CNO has provided a print out of Names of Staff members assigned to complete training, at the beginning of their next shift, in which the Nurse Supervisor meets with each Staff member upon their return to work, to provide education, Attestation and clarify any questions/concerns. CNO or Designee will continue to monitor Staff returning to shift for completion of education, at their shift return.

As of 02/17/2023, 8 of 8 Providers were trained. As of 02/17/23, 103 of 244 clinical and nursing staff were trained.

As of 03/15/23, 180 of 244 clinical and nursing staff were trained.
