Executive Summary

MED-Project WA, LLC ("MED-Project") develops, implements, and operates stewardship programs for Covered Drugs on behalf of hundreds of participating Covered Manufacturers as identified in Appendix A. MED-Project has served the residents of the State since the implementation of its first take-back programs in King and Snohomish counties in 2017. MED-Project was the only approved Program Operator when the Drug Take-Back Program legislation was initially passed and at the inception of the State Drug Take-Back Program in 2020. The Covered Manufacturers that participated in the MED-Project Approved Program met the Covered Manufacturer compliance obligations under RCW 69.48. See RCW 69.48.020 through 69.48.200. These same compliant Covered Manufacturers exclusively and fully funded all aspects of the Program including paying an initial fee of \$700,000 to the State of Washington Department of Health. MED-Project continues to administer an approved Product Stewardship Plan for Covered Drugs from Households ("Approved Plan") in the State of Washington. MED-Project established the MED-Project website and call center as required by RCW 69.48.070(1)(d) to further promote the Program. The Drug Take-Back Law was then modified in 2021 to allow other Program Operators to apply for program approval and one additional Program Operator was approved in 2022. MED-Project then took a leadership role in establishing a single coordinated website and toll-free telephone number as required by RCW 69.48.070(2) and further promote the Safe Medication Return Program to be easily identifiable, understandable, and accessible for State residents. At the time of this plan submission, MED-Project has collected over 875,000 pounds of Covered Drugs in the State through a wide network of over 650 service locations that includes conveniently located Collection Sites and Mail-Back Distribution Locations. MED-Project's comprehensive outreach and education program has generated over 321 million impressions to State residents. MED-Project is submitting this updated Product Stewardship Plan for Covered Drugs from Households (the "Plan") as required by the 2021 revised Drug Take-Back Law and Washington Department of Health revised regulations that were promulgated in 2024 (the "Regulations"). According to the 2023 Final Annual Collection Report(s), MED-Project Authorized Collectors attributed for 75% of all Authorized Collectors that collected weight in the State of Washington and contributed over 85% of Covered Drugs collected from all Authorized Collectors that collected Covered Drugs in 2023. Further, MED-Project Collection Receptacles that collected weight in 2023, collected 89% more weight per Collection Receptacle on average than any other Program Operator collection receptacle. The performance of MED-Project's program implementation and operation in the State of Washington, including successfully operating the Program without interruption throughout the global COVID-19 pandemic, clearly illustrates MED-Project's commitment to quality, compliance, and the safe and secure collection and disposal of household Covered Drugs from Covered Entities.

I. Introduction

MED-Project submits this Plan on behalf of the Covered Manufacturers identified in Plan <u>Appendix A</u> and pursuant to the Washington Drug Take-Back Program, codified as Chapter 69.48 RCW.

The Drug Take-Back Law requires Covered Manufacturers¹ to establish and implement a Drug Take-Back Program (the "Program") that complies with the requirements of the Law independently, as part of a group of Covered Manufacturers, or through membership in a Drug Take-Back Organization. <u>Appendix B</u> contains a table that denotes how the Plan addresses each component of RCW 69.48.050 and 246-480 WAC.

¹ All capitalized terms used but not otherwise defined shall derive their respective meanings from the Drug Take-Back Law.

II. Contact Information

The primary contact person for MED-Project is:

Dr. Victoria Travis, PharmD, MS, MBA National Program Director MED-Project WA, LLC 24 Roy Street Unit 14 Seattle, WA 98109

Phone: 1 (833) 633-7765 Fax: 1 (866) 633-1812

washington@med-project.org

III. Definitions

Carrier is a common or contract carrier used to transport Covered Drugs.

Collection Event means a one-day event, supported by MED-Project, with oversight by law enforcement at a location accessible to the public for the collection of Covered Drugs from Covered Entities.

Collection Receptacle means a secure kiosk provided or approved by MED-Project for the collection of Covered Drugs at a Collection Site.

Covered Drug means a drug from a covered entity that the covered entity no longer wants and that the covered entity has abandoned or discarded or intends to abandon or discard. "Covered drug" includes legend drugs and nonlegend drugs, brand name and generic drugs, drugs for veterinary use for household pets, and drugs in medical devices and combination products.

"Covered drug" does not include: Vitamins, minerals, or supplements; Herbal-based remedies and homeopathic drugs, products, or remedies; Controlled substances contained in schedule I of the uniform controlled substances act, chapter 69.50 RCW; Cosmetics, shampoos, sunscreens, lip balm, toothpaste, antiperspirants, or other personal care products that are regulated as both cosmetics and nonprescription drugs under the federal food, drug, and cosmetic act, 21 U.S.C. Sec. 301 et seg.; Drugs for which manufacturers provide a pharmaceutical product stewardship or drug take-back program as part of a federal food and drug administration managed risk evaluation and mitigation strategy under 21 U.S.C. Sec. 355-1; Biological drug products, as defined by 21 C.F.R. 600.3 (h) as it exists on June 7, 2018, for which manufacturers provide a pharmaceutical product stewardship or drug take-back program and who provide the department with a report describing the program, including how the drug product is collected and safely disposed and how patients are made aware of the drug take-back program, and who updates the department on changes that substantially alter their drug take-back program; Drugs that are administered in a clinical setting; Emptied injector products or emptied medical devices and their component parts or accessories; Exposed needles or sharps, or used drug products that are medical wastes; or Pet pesticide products contained in pet collars, powders, shampoos, topical applications, or other forms.

DEA is the U.S. Drug Enforcement Administration.

DEA Rule is the DEA Final Rule, "Disposal of Controlled Substances," 79 Fed. Reg. 53,520 *et seq.*, adopted on September 9, 2014.

DOT is the U.S. Department of Transportation.

Help Desk is the MED-Project website, call center, and email-in database for potential Authorized Collectors, Authorized Collectors, Collection Sites, and Mail-Back Distribution Locations that can be reached at the MED-Project website (med-project.org), 1-833-633-7765 (1-833-MED-PROJECT), or washington@med-project.org.

Inhaler Mail-Back Packages are pre-paid, pre-addressed mail-back packages provided by Vendor for the collection and disposal of inhalers.

Injector Mail-Back Packages are pre-paid, pre-addressed, United States Food and Drug Administration-cleared sharps container mail-back systems provided by Vendor for the collection and disposal of Pre-filled Injector Products.

Mail-Back Distribution Location means a public facility, such as a town hall or library, that offers Mail-Back Packages to Covered Entities.

Mail-Back Packages are pre-paid, pre-addressed mail-back containers, envelopes, packages, or systems provided by Vendor for the collection and disposal of Covered Drugs.

On-Demand Collection Service is a service method where Authorized Collector employees manage the removal and packaging of full Collection Receptacle inner liners provided by Vendor prior to Carrier pick-up.

Patients are Covered Entities of the State who are in possession of Covered Drugs.

Plan is this submittal, including as amended or supplemented.

Pre-filled Injector Products are pre-filled injector products with a retractable or otherwise securely covered needle from which Covered Drugs cannot be removed.

Program is the MED-Project drug take-back program in this Plan.

Substance Use Disorder Treatment Program is defined in RCW 71.24.025.

Specified Languages are Spanish, Chinese, Vietnamese, Russian, and Tagalog.

Standard Mail-Back Packages are pre-paid, pre-addressed mail-back envelopes provided by Vendor for the collection and disposal of Covered Drugs, except for inhalers and Pre-filled Injector Products.

State means the State of Washington.

Vendor is any vendor hired by MED-Project to provide goods and/or services under the Program.

IV. Collection System

When the Drug Take-Back Law was passed, MED-Project, being the only approved operator at the time, sent out all the initial notifications to Retail Pharmacies, hospitals or clinics with on-site pharmacies, and law enforcement agencies of the opportunity to serve as a Collection Site 120 days prior to submitting the Plan. In the first 180 days of implementation of the Approved Plan, MED-Project spent significant time identifying and securing potential Authorized Collectors and consulting with local health jurisdictions to plan supplemental services in population centers that are areas underserved by Collection Sites. MED-Project periodically performed outreach to potential locations with the goal of establishing Collection Sites. Before submitting this Plan, MED-Project notified non-participating Retail Pharmacies, hospitals or clinics with on-site pharmacies, and law enforcement agencies of the opportunity to participate in the Program, and asked if the potential Authorized Collector would like more information regarding the Program. See Appendix D for the list of potential Authorized Collectors. To identify Retail Pharmacies, hospitals or clinics with on-site pharmacies, and law enforcement agencies, MED-Project obtained a list of licensed pharmacies and licensed hospital pharmacies from the Washington State Department of Health and a list of law enforcement agencies from the Washington State Criminal Justice Training Commission.

A potential Authorized Collector can contact MED-Project for Program information on the process for submitting a written expression of interest in participating in the Program by contacting the Help Desk, completing an online questionnaire, or writing to the MED-Project mailing address. No later than 30 days after the potential Authorized Collector expresses written interest in participating in the Program, MED-Project will commence good faith negotiations by initiating a process that includes:

- Conducting an eligibility assessment;
- Providing a questionnaire to collect information required for an agreement if the potential Authorized Collector is eligible to participate in the Program;
- Providing a draft agreement based on information provided in the returned questionnaire;
- Providing a draft written offer to participate stating that the potential Authorized Collector has reviewed MED-Projects' draft agreement, identified no significant objections to the draft agreement, agreed to comply with all applicable laws, regulations, and other legal requirements, and agreed to participate in the Program without compensation;
- Receiving a signed offer to participate from the potential Authorized Collector.

If a potential Authorized Collector identifies objections to the MED-Project draft agreement, MED-Project will negotiate with that Authorized Collector to reach an agreement that will allow it to participate in the Program on terms consistent with the scope of the Drug Take-Back Law and Regulations. MED-Project will not exclude potential Authorized Collectors from Program participation when agreement terms cannot be reached, unless the potential Authorized Collector is unwilling to agree to terms regarding compliance with all applicable laws, regulations, other legal requirements or any other terms consistent with the scope of the Plan.

MED-Project will seek to include a Retail Pharmacy, hospital or clinic with an on-site pharmacy, or law enforcement agency as a Collection Site within 90 days of receipt of a signed written offer to participate in the Program. If MED-Project has not met the service convenience goal described in RCW 69.48.060 in a population center, MED-Project will seek to include a long-term care facility or Substance Use Disorder Treatment Program as a Collection Site in the Program within 90 days of receipt of a written offer to participate in the Program. Participation as a Collection Site is contingent upon execution of a signed agreement with MED-Project, adherence to all applicable laws, regulations, and other legal requirements, and the completed installation of a Collection Receptacle.

If MED-Project excludes any potential Authorized Collectors from participation in the Program for reasons other than those stated in the Plan, the reason(s) will be provided to the Department. For example, MED-Project may exclude any pharmacy that does not meet the Department's requirements to keep collection receptacles unlocked during times when the pharmacy is open to the public. MED-Project will consider the Department's approval of other Program Operators' Updated Plan and may adjust the MED-Project Updated Plan accordingly.

A. Equitable and Reasonably Convenient Access

MED-Project will implement the approved Program within 180 days of the Department's approval of the Plan. MED-Project has set up a collection system that provides equitable and reasonably convenient access to residents across the State consistent with RCW 69.48.060. MED-Project will seek to establish a collection system that meets the requirements of RCW 69.48.060(3)(c)(i), which provides that "[e]ach population center [as described in RCW 69.48.060(3)(c)(iii)] must have a minimum of one collection site, plus one additional collection site for every fifty thousand residents of the city or town located within the population center." MED-Project understands that the Department has interpreted RCW 69.48.060(3)(c)(iii) to allow for the overlap of unincorporated areas in population centers and has applied the interpretation to the evaluation of the service convenience goal provided in this Plan. MED-Project will rely upon the State's Office of Financial Management website to identify cities and towns.² MED-Project will give preference to locating Collection Sites at Retail Pharmacies, hospitals or clinics with on-site pharmacies, and law enforcement agencies, and will work to distribute Collection Sites geographically to provide reasonably convenient and equitable access to all residents of the population centers based on RCW 69.48.060(3)(c)(i). Additionally, MED-Project will provide at no cost, Mail-Back Packages upon request to Covered Entities and to Retail Pharmacies that offer to distribute Mail-Back Packages to Covered Entities.

On islands and in areas outside of population centers, MED-Project will seek to locate Collection Sites at each eligible potential Authorized Collector that is regularly open to the public and is willing to participate in the Program. RCW 69.48.060(3)(c)(ii). See Appendix E for a list of potential Collection Sites outside population centers.

12

² MED-Project will rely on the most recent data available at https://www.ofm.wa.gov/sites/default/files/public/dataresearch/pop/april1/ofm_april1_population_final.xlsx

MED-Project provides equitable and reasonably convenient access to all State residents through executed agreements with Retail Pharmacies, hospitals or clinics with on-site pharmacies, or law enforcement agencies, and will seek to establish additional Collection Sites in areas outside of population centers where potential Authorized Collectors are available. See Appendix C for a list of locations hosting a Collection Receptacle.

Figure 1 provides a map of MED-Project's current Collection Sites and Mail-Back Distribution Locations in the State as of May 31st, 2024.

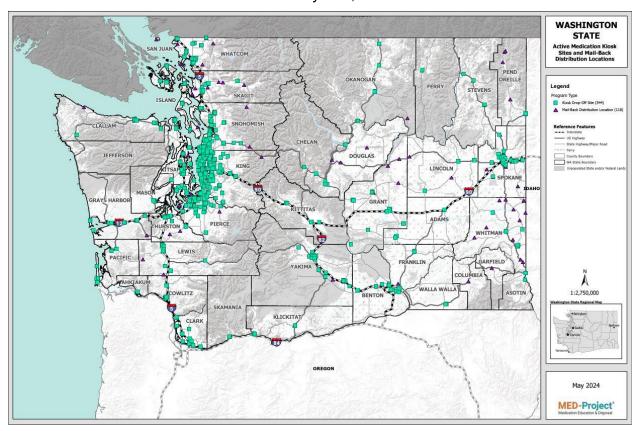

Figure 1: Map of MED-Project's Collection Sites and Mail-Back Distribution Locations

MED-Project implemented an approved supplemental services plan that was submitted to the Department on October 29, 2020. MED-Project continued to conduct surveys in local health jurisdictions in any areas that continue to be underserved. MED-Project considered feedback from the surveys when establishing supplemental collection services, including feedback on the number, location, and type of supplemental services. As a result, MED-Project established an extensive network of services throughout the State through over 650 service locations consisting of Collection Sites and Mail-Back Distribution Locations that blanket Washington. MED-Project will continue to strive to meet the convenience standard in RCW 69.48.060(3). MED-Project will consult with the Department, local law enforcement, the local health jurisdiction, and the local community to plan supplemental collection services in areas that may be underserved by Collection Sites, per RCW 69.48.060(3)(d). 180 days after Plan approval, MED-Project will establish mail-back distribution locations or hold periodic

collection events to supplement service to any area of the state that is underserved by collection sites as required by RCW 69.48.060(3)(d). MED-Project has established Mail-Back Distribution Locations in many of the population centers without a Collection Site to supplement services. See Appendix C for participating Mail-Back Distribution Locations. MED-Project has also established an online Mail-Back Package ordering system that is available anywhere across the State 24 hours a day, every day of the year. MED-Project will strive to consult with local health jurisdictions until Collection Sites, Mail-Back Distribution Locations or Collection Events are established in all population centers that are underserved.

Consistent with RCW 69.48.050(2)(d), MED-Project will seek to continue to provide Collection Sites as the primary method of collection in population centers across the State and supplemental Mail-Back Distribution Locations or Collection Events in population centers underserved with Collection Sites to no more than 15 percent of State residents. As MED-Project achieves equitable and reasonably convenient access to Collection Sites, supplemental services will be discontinued.

B. Collection Sites

MED-Project's collection system will be safe, secure, and convenient on an ongoing, year-round basis and provide equitable and reasonably convenient access for Covered Entities across the State. Authorized Collectors participating in the Program must use a MED-Project Collection Receptacle complying with all applicable laws, regulations, and other legal requirements, including any applicable on-site storage and collection standards adopted by rule pursuant to chapter 70A.205 or 70A.300 RCW.

To be eligible to participate in the Program, an Authorized Collector, long-term care facility, or Substance Use Disorder Treatment Program must maintain all applicable licenses, registrations, and credentials in good standing, safely and securely collect and store Covered Drugs, and comply with an agreement to participate in the Program and all applicable laws, regulations, and other legal requirements including applicable provisions of 70A.205 and 70A.300 RCW. Collection of Covered Drugs (excluding Prefilled Injector Products) will begin at Collection Sites once agreements have been executed with MED-Project and Collection Receptacles have been installed.

MED-Project Collection Receptacles will have a consistent design and use plain language and pictograms to instruct residents on the use of collection receptacles, including information about what is and is not accepted in the Collection Receptacle. Collection Receptacle signage will prominently display the approved common mark, the single toll-free telephone number and single coordinated website for Washington's Drug Take-Back Program so members of the public can report a full or damaged Collection Receptacle or inquire about the Program. Collection Receptacle signage will inform Covered Entities who deposit Covered Drugs that they should completely cross out, remove, or otherwise make unreadable all personally identifiable information on the drug containers and packaging before placing them in the Collection Receptacle.

Appendix F provides sample images of the MED-Project Collection Receptacle and Collection Receptacle signage.

Pre-filled Injector Products cannot be deposited into Collection Receptacles and will be collected and disposed of via Injector Mail-Back Packages.

1. Collection Site Locations

All Collection Sites shall meet DEA and Washington State Pharmacy Quality Assurance Commission ("WSPQAC") requirements, if applicable, and accept all Covered Drugs from Covered Entities during the hours that the Collection Site is normally open for business with the public. The DEA Rule only permits "manufacturers, distributors, reverse distributors, narcotic treatment programs, hospitals/clinics with an on-site pharmacy, and retail pharmacies" and certain long-term care facilities to host collection receptacles that collect controlled substances. DEA Rule § 1317.40(b). If an Authorized Collector does not meet this requirement, then it is not eligible to serve as a Collection Site.

Pharmacies, hospitals/clinics with an on-site pharmacy, and Substance Use Disorder Treatment Programs may participate as a Collection Site only if they modify their DEA registrations to become Authorized Collectors.

2. Collection Receptacle Placement and Maintenance

All Collection Receptacles in the Program will be securely placed and maintained inside a Collection Site's physical location in accordance with DEA Rule §§ 1317.75(d)(1) and 1317.35(a)(3). Collection Receptacles at pharmacies, hospitals/clinics with an on-site pharmacy, and law enforcement agencies must be located in an area that is open to the public.

At pharmacies, Collection Receptacles will be placed in the immediate proximity of a designated area where controlled substances are stored and at which an employee is present (*i.e.*, can be seen from the counter), pursuant to DEA Rule § 1317.75(d)(2). At hospitals or clinics with an on-site pharmacy, Collection Receptacles will be placed in an area regularly monitored by employees but not near areas of the facility where urgent or emergency care is provided. DEA Rule § 1317.75(d)(2)(i). At Substance Use Disorder Treatment Programs, Collection Receptacles will be placed in a room that does not contain any other controlled substances and is securely locked with controlled access. See DEA Rule § 1317.75(d)(2)(ii). At long-term care facilities, Collection Receptacles will be placed in a secured area regularly monitored by long-term care facility employees. DEA Rule § 1317.75(d)(2)(iii).

When servicing a Collection Receptacle, Authorized Collector employees will inspect the Collection Receptacle for any needed maintenance. The Authorized Collector employees will submit any maintenance requests through the Help Desk. MED-Project will provide for the inspection of Collection Receptacles at least semi-annually to monitor for general wear and tear and clean the Collection Receptacle, as necessary, to maintain proper function. At least one inspection will be completed by a MED-Project representative

3. Inner Liner Handling and Disposal

Authorized Collector employees and Vendor will follow DEA requirements for servicing Collection Receptacles. Per these requirements:

 Authorized Collector employees shall hold the two keys to unlock the Collection Receptacle, unless the Collection Site is a law enforcement agency.

- Vendor and Authorized Collectors participating in the Plan shall keep all records required under the DEA Rule, including those required under DEA Rule §§ 1304 and 1317.35.
- Inner liners provided in the Collection Receptacle shall be opaque to prevent visual recognition of the contents.

Each inner liner and box provided by the Vendor will be pre-paid and pre-addressed for transport and disposal.

a. Long-Term Care Facility Inner Liner Handling and Disposal

MED-Project will provide collection and disposal services as described in Section IV.B at long-term care facilities. In addition to the requirements applicable to pharmacies, a long-term care facility must:

- Only collect Covered Drugs possessed by individuals who reside or have resided at the facility. RCW 69.48.060(2)(b).
- Locate Collection Receptacles in a secured area regularly monitored by longterm care facility employees. DEA Rule § 1317.75(d)(2)(iii).
- Lock or make Collection Receptacles otherwise inaccessible when long-term care facility employees are not regularly monitoring the Collection Receptacles. DEA Rule § 1317.75(f).
- Have an authorized retail pharmacy or a hospital/clinic with an on-site pharmacy install, manage, and maintain the Collection Receptacle. DEA Rule § 1317.80(b).
- Have one employee of the Authorized Collector and one supervisor-level employee of the long-term care facility designated by the Authorized Collector or two employees of the Authorized Collector perform or supervise the installation, removal, transfer, and storage of inner liners. DEA Rule § 1317.80(c).
- Store sealed inner liners for no more than three business days upon removal.
 DEA Rule § 1317.80(d).
- Transfer controlled substances in Schedules II, III, IV, and V into an authorized collection receptacle located at the long-term care facility if disposing of controlled substances on behalf of an ultimate user who resides, or has resided, at the long-term care facility. When disposing of such controlled substances, disposal shall occur immediately, but no longer than three business days after the discontinuation of use by the ultimate user. DEA Rule § 1317.80(a).

MED-Project will work with long-term care facilities to identify additional applicable inner liner handling and disposal requirements if the waste collected at the long-term care facility must be managed as a hazardous or dangerous waste. Pick-up of sealed inner liners at long-term care facilities will take place within three business days of removal.

b. Substance Use Disorder Treatment Program Inner Liner Handling and Disposal

DEA Rule § 1317.75(f) states that, "[e]xcept at a narcotic treatment program, the small opening in the outer container of the collection receptacle shall be locked or made otherwise inaccessible to the public when an employee is not present (e.g., when the pharmacy is closed), or when the collection receptacle is not being regularly monitored by long-term care facility employees." DEA Rule §§ 1301.72 through 1301.74 establish additional physical and other security controls and requirements that may apply to the

containers used as Collection Receptacles. At a Substance Use Disorder Treatment Program, a Collection Receptacle must be located in a room that does not contain any other controlled substances and is securely locked with controlled access. See DEA Rule § 1317.75(d)(2)(ii).

4. Collection Methods

An Authorized Collector will participate in the Program via the On-Demand Collection Service method. MED-Project provides for the collection, transport, and disposal of Covered Drugs at no cost to the Authorized Collector.

At an Authorized Collector participating via the On-Demand Collection Service method, the Authorized Collector employees will prepare the inner liner for shipment following instructions provided by Vendor. The On-Demand Collection Service method will enable Authorized Collectors to control the timing for servicing the Collection Receptacle, avoiding disruptions to operations or storage limitations at the site. The Authorized Collector employees will seal the inner liner for packaging and transport and schedule a Carrier to pick up the packaged inner liner at a time of their choosing or offer the packaged inner liner during a regular Carrier pick up.

Using a system that is designed to stock Authorized Collectors with spare inner liners and boxes prior to exhausting on-site supplies, Authorized Collectors participating via the On-Demand Collection Service method will receive replenishment inner liners and boxes automatically when the two inner liners and boxes from previous kits of inner liners and boxes remain on-site. The automatic replenishment system for inner liners and boxes will limit situations in which an Authorized Collector must lock a Collection Receptacle that has become full before receiving a replenishment inner liner and box.

An Authorized Collector participating via the On-Demand Collection Service method that depletes their inventory of box and liners can order additional inner liners and boxes through a system designed to fulfill orders within five business days. Requests for additional inner liners and boxes and maintenance requests, including requests for prompt service, will be received through the MED-Project website and Help Desk.

5. Collection Receptacle Service

When servicing a Collection Receptacle in compliance with all applicable laws, regulations, and other legal requirements, except at a long-term care facility, Authorized Collector employees will:

- Inspect the Collection Receptacle.
- Unlock the Collection Receptacle and immediately remove and seal the inner liner following procedures meeting all DEA requirements.
- Replace the inner liner and box with a replenishment inner liner and box provided by Vendor.
- Match the unique identifier of the inner liner to the tracking number on the shipping label,
- Package the inner liner for transport.

- Prepare the materials for shipment and perform applicable pre-transportation functions to comply with the United States Department of Transportation Hazardous Materials Regulations.
- Schedule a pick-up from the Carrier to be completed within a few business days or offer the packaging holding the sealed inner liner for pick-up by routine Carrier service at the Collection Site.

Authorized Collector employees will maintain control of the inner liner at all times. The Collection Site will store the inner liner in compliance with all applicable laws, regulations, and other legal requirements until Carrier pick-up. Long-term care facilities will be serviced in accordance with DEA Rule § 1317.80.

Collection Site and Authorized Collector employees, Vendor, and Carrier shall manage Covered Drugs in compliance with all applicable laws, regulations, and other legal requirements. Covered Drugs will be destroyed in compliance with all applicable laws, regulations, and other legal requirements at a municipal waste combustor, medical waste incinerator, or hazardous waste incinerator.

6. Help Desk

MED-Project will manage a Help Desk available through the MED-Project website at MED-Project.org, 1-833-MED-PROJECT (1-833-633-7765), or washington@med-project.org to support the following functions and assistance:

- Answer questions and respond to inquiries from Authorized Collectors, potential Authorized Collectors, pharmacists and pharmacies, Collection Sites, and/or Mail-Back Distribution Locations.
- Respond to providers, hospitals, pharmacies, and other entities that wish to distribute Mail-Back Packages and/or public promotional materials.
- Direct and respond to requests from Authorized Collectors, Collection Sites and/or Mail-Back Distribution Locations.

Authorized Collectors, potential Authorized Collectors, pharmacists and pharmacies, and/or Mail-Back Distribution Locations will be able to obtain educational and outreach materials, order more Mail-Back Packages, and communicate with MED-Project about questions, concerns, or report issues through the Help Desk, including on the MED-Project website. See Appendix I. Potential Authorized Collectors, including pharmacists/pharmacies, may also use the Help Desk to request Program information and express interest in participating in the Program. When reached by phone, the Help Desk will identify to callers that they are calling MED-Project. Potential Authorized Collectors may also use medtakebackwashington.org to get more information about the program operators in the State of Washington.

Participating Collection Sites will be able to log into a support system at MED-Project.org on the main landing page, confirm their site information, and have access to instructional materials including written instructions, downloadable forms, and/or video instruction guides. Additionally, Authorized Collectors will be able to request step-by-step instructions for servicing a Collection Receptacle through the Help Desk.

C. Mail-Back Services

MED-Project will provide three types of Mail-Back Packages including Standard Mail-Back Packages, Inhaler Mail-Back Packages, and Injector Mail-Back Packages.

Requests by Covered Entities to receive Mail-Back Packages will be taken through the medtakebackwashington.org website, call center, and/or at Retail Pharmacies that request to distribute Mail-Back Packages. MED-Project does not require that pharmacies that wish to distribute mailers must sign an agreement to become a Mail-Back Distribution Location first. Under RCW 69.48.060(e), pharmacies can offer to distribute prepaid, preaddressed mailing envelopes and MED-Project will provide these envelopes to the pharmacy free of charge. These pharmacies are not part of MED-Project's supplemental service program. However, pharmacies may wish to become a Mail-Back Distribution Location and thus, MED-Project may ask that those pharmacies sign an agreement. Retail pharmacies not participating as a mail-back distribution location can request mail-back packages through the medtakebackwashington.org website and call center. All Mail-Back Packages will be prepaid and pre-addressed and provided at no cost to Retail Pharmacies and Covered Entities upon request. The provision, collection, and disposal of Covered Drugs via Mail-Back Packages will comply with all applicable laws, regulations, and other legal requirements.

All Mail-Back Packages will have inserts covering:

- How to use the Mail-Back Package.
- What materials may go into the Mail-Back Package.
- Mailing restrictions with a notice that only packages provided by Vendor will be accepted for destruction.
- How to return the Mail-Back Package.
- Information about other options for disposing of Covered Drugs.

Appendix G provides sample images of the Mail-Back Packages and package inserts.

1. Mail-Back Distribution Locations

MED-Project may establish Mail-Back Distribution Locations to supplement service in any population centers that are in areas of the State that are underserved by Collection Sites. Mail-Back Distribution Locations will be located in staffed public facilities, such as libraries, town halls, or law enforcement agencies, and will distribute Mail-Back Packages to Covered Entities. Sites must enter into an agreement with MED-Project to become a Mail-Back Distribution Location as described in Section IX.A. Mail-Back Distribution Locations will provide Mail-Back Packages free of charge to Covered Entities. Mail-back Distribution Locations have the choice in how they display the mail-back packages. MED-Project has systems in place to allow sites to maintain consistent supply of mail-back packages. MED-Project will notify sites periodically about ordering additional Mail-Back Packages and education materials and answer any other questions. Appendix C provides a list of sites MED-Project has established as Mail-Back Distribution Locations.

Retail Pharmacies that have entered into an agreement with MED-Project as a Mail-Back Distribution Location may request free Mail-Back Packages to offer to distribute

them to Covered Entities upon request. Mail-Back Packages will be provided at no cost to the Retail Pharmacy. These Retail Pharmacies that offer to distribute Mail-Back Packages to Covered Entities will be able to log into a support system at MED-Project.org, provide their valid US Postal Service shipping address, and request Mail-Back Packages in standard units as provided by Vendor.

Mail-Back Distribution Locations and Retail Pharmacies may request Mail-Back Packages through the MED-Project website or Help Desk. The fulfillment system will be designed to provide reminders to Mail-Back Distribution Locations to help maintain inventory. Requests will be promptly fulfilled. MED-Project will provide Standard Mail-Back Packages, Inhaler Mail-Back Packages, and Injector Mail-Back Packages as requested by a Mail-Back Distribution Location or Retail Pharmacy.

D. Collection Events

MED-Project may support periodic Collection Events to supplement service to any population center area of the State that is underserved by Collection Sites. Federal, state, tribal, or local law enforcement shall oversee all Collection Events. MED-Project will coordinate Collection Events in advance with local law enforcement agencies and support Collection Events in compliance with all applicable laws, regulations, and other legal requirements.

MED-Project will contract with local law enforcement to oversee Collection Events. These contracts will support the collection, transportation, and disposal of Covered Drugs from Collection Events and include requirements for participating law enforcement. MED-Project will work with local law enforcement to accommodate any reasonable requirements. MED-Project will pay for the applicable costs for collection events as required per RCW 69.48.090.

1. Procedure

Collection Events will be staffed in compliance with DEA requirements and as requested by local law enforcement. MED-Project will provide for adequate staffing and resources to assist local law enforcement with logistics, coordination, and other needs during the event, if needed. MED-Project will promote Collection Events as described in Section V.

MED-Project will work in coordination with law enforcement, where needed, to implement procedures for the collection of Covered Drugs at Collection Events in compliance with all applicable laws, regulations, and other legal requirements and meeting the expectations of the planned event. Material will be placed in a compliant collection receptacle and securely shipped to meet all applicable laws, regulations, and other legal requirements. Any material that is not a Covered Drug or does not meet legal requirements will be rejected as described in Section IX.B.4.

MED-Project will provide for inner liners, matched to the unique inner liner identifier on the shipping labels, so that the inner liners can be prepared for shipment in compliance with all applicable laws, regulations, and other legal requirements. Sealed inner liners will remain under the control and custody of law enforcement to the point of secure transfer, storage, or destruction.

E. Separation and Recycling of Packaging

RCW 69.48.050(2)(I)(ii) and (iii) require that MED-Project consider separation of Covered Drugs from packaging to reduce transportation and disposal costs and recycling of drug packaging. MED-Project has considered and evaluated options for the separation and recycling of drug packaging.

Separating and recycling drug packaging collected under the Plan would require the management of separate waste streams at Collection Sites: a waste stream for drug packaging and a waste stream for the drugs themselves. While drug packaging is expected to constitute a significant amount of the waste incinerated under the Plan, MED-Project has concluded that separation of inner and/or outer packaging from Covered Drugs or recycling packaging would raise three significant concerns:

- Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging.
- Separating and recycling drug packaging could increase the potential of releases and leakage of Covered Drugs.
- Separating and recycling drug packaging could increase diversion risks by adding additional steps to the collection process and because drug packaging is used in drug counterfeiting and would be a diversion target itself.

For these reasons, the Plan does not provide for the separation and recycling of packaging from Covered Drugs.

F. Disposal of Covered Drugs

Covered Drugs will be destroyed in accordance with all applicable laws, regulations, and other legal requirements. In accordance with RCW 69.48.060(3)(f), MED-Project will provide alternative collection methods for any covered drugs, other than controlled substances, that cannot be accepted or commingled with other covered drugs in secure collection receptacles, through a mail-back program, or at periodic collection events, to the extent permissible under applicable state and federal laws.

Vendors used by the Program are identified in Table 1. The transporters used by the Program are identified in Table 2. MED-Project will dispose of Covered Drugs using facilities located outside of the State. The waste disposal facilities used by the Program, including their names, addresses, type, and federal or state waste permit type and number, are identified in Table 3.

Table 1: Vendors

Name	Address	
PureWay Compliance, Inc.	16225 Park Ten Place, Suite 830, Houston, TX 77084	
Stericycle, Inc.	2355 Waukegan Road, Bannockburn, IL 60015

Clean Harbors Aragonite, LLC	11600 North Aptus Rd., Grantsville, UT 84029	EPA ID No: UTD981552177 Title V Operating Permit No: 4500048004	Hazardous Waste Incinerator	Accepts all collected Covered Drugs.
Curtis Bay Energy, LP	3200 Hawkins Point Road, Baltimore, MD 21226	EPA ID No: MDD985404318 Title V Operating Permit No: 24-510-2975	Medical Waste Incinerator	Accepts all collected Covered Drugs.
Heritage Thermal Services – Ohio	1250 Saint George Street, East Liverpool, OH 43920	EPA ID No: OHD980613541 Title V Operating Permit No: OH0000000215020233	Hazardous Waste Incinerator	Accepts all collected Covered Drugs.
Stericycle, Inc., Warren, Ohio Facility	1901 Pine Avenue, SE, Warren, OH 44483	EPA ID No. OHD980795280 Title V Operating Permit No: P0128242	Medical Waste Incinerator	Accepts all collected Covered Drugs.

V. Safe Medication Return Program Promotion

MED-Project will continue a system of promotion, education, and public outreach to drive awareness of the Safe Medication Return Program. Education and public outreach will promote the use of the Program so that where and how to return Covered Drugs is widely understood by residents, pharmacists, Retail Pharmacies, health care facilities and providers, veterinarians, and veterinary hospitals.

MED-Project will make Program information available through the single coordinated website and MED-Project website and distribute written materials to Collection Sites, Mail-Back Distribution Locations, Retail Pharmacies providing Mail-Back Packages to Covered Entities, Collection Events, health care facilities and other interested parties so that they can provide these materials to Covered Entities. MED-Project's central messaging themes will include, but are not limited to:

- The importance of following any storage instructions as provided on the medicine label and/or on the patient information accompanying the medicine.
- The importance of taking medicines as prescribed by health care providers.
- The importance of adhering to and completing provider prescribed therapy.
- The importance of safely storing Covered Drugs, such as keeping the medicine in a secure location before secure disposal through the Safe Medication Return Program.
- Discouraging stockpiling of Covered Drugs.
- Discouraging the disposal of Covered Drugs in solid waste collection, sewer, or septic systems.
- Describing how to return Covered Drugs via the Safe Medication Return Program.
- How to find and use Collection Receptacles, Mail-Back Distribution Locations, and Retail Pharmacies providing Mail-Back Packages to Covered Entities.
- How to properly use mail-back services.
- How to find Collection Events.

A. Coordination

MED-Project will continue coordinating promotional activities with other approved Program Operators. MED-Project will begin coordinating with any newly approved Program Operator within 180 days of the Department's approval of that Program Operator. MED-Project will coordinate to implement a Safe Medication Return common mark, a single coordinated website, and a single toll-free telephone number for accessing information about collection services for all approved programs. MED-Project and the other approved Program Operator have agreed on principles for a single system of promotion, as detailed in Appendix H. These coordination terms cover promotion, a state common mark, a single toll-free telephone number, and a single website.

1. Single Coordinated Website

MED-Project will continue to coordinate with other approved Program Operator(s) to maintain a neutrally-branded, single coordinated website. The single coordinated website displays all approved Program Operator collection sites, mail-back distribution

locations, and collection events using information provided by the approved Program Operators. The single coordinated website features the Washington State approved common mark, the single toll-free telephone number, information about what the Safe Medication Return Program accepts and does not accept and information on why and how to dispose of medication. MED-Project will update the list of Collection Sites, Mail-Back Distribution Locations, and Collection Events at least quarterly on the single coordinated website.

Appendix J contains screenshots of the single coordinated website.

MED-Project will update the single coordinated website, when necessary, to be in compliance with the legislation (RCW 69.48.070(2)) and regulations (WAC 246-480-070(9)). The single coordinated website will feature information on why and how to safely store medication. Additionally, it will include links to the Department's Safe Medication Return website and contact information for the public to submit comments, questions, or concerns to the Washington State Department of Health. The single coordinated website will discourage the disposal of medication down drains or in the garbage. The single coordinated website will allow Covered Entities and Retail Pharmacies to request prepaid, preaddressed mail-back packages and it will equally distribute requests for mail-back packages among approved Program Operators.

2. Single Coordinated Toll-Free Telephone Number

MED-Project will continue to coordinate with other approved Program Operator(s) to maintain a single toll-free telephone number (844) 4-TAKE-BACK. This neutrally-branded, single toll-free number serves as a combined call center directory, distributing calls equally among the approved Program Operators. The single toll-free telephone number is available 24 hours a day, every day of the year.

Callers to the single toll-free telephone number can access information about the statewide Safe Medication Return Program, including why and how to safely store and dispose of medication and discouraging disposal of medication down drains or in the garbage. The toll-free telephone number also provides details on what the Safe Medication Return Program accepts and does not accept, as well as information about the single coordinated website. Additionally, callers can obtain information on collection sites, mail-back distribution locations, and collection events from all approved Program Operators, and Covered Entities can request prepaid, preaddressed mail-back packages. The single toll-free telephone number also provides the Department's contact information for callers who wish to provide feedback, including comments, questions, or concerns.

B. MED-Project Specific Website

The MED-Project specific website offers an accessible, mobile-friendly and multilingual platform. The MED-Project specific website will include the State approved common mark and provide links to the single coordinated website. The MED-Project specific website will offer information on how to access all Collection Sites, Mail-Back Distribution Locations, and Collection Events. The website will provide information on the safe usage and storage of Covered Drugs, discourage disposal of Covered Drugs in solid waste, sewer, or septic systems, and describe safe disposal options. Links to

MED-Project's social media pages will be available on the landing page. <u>Appendix I</u> contains screenshots of the MED-Project website and its supporting webpages.

In addition to information for residents, MED-Project will provide information (partner promotional material) to Authorized Collectors. These materials will be focused on recruiting and educating Authorized Collectors, Collection Sites, Mail-Back Distribution Locations and Collection Events through the MED-Project website.

Mail-Back Distribution Locations will be able to request Mail-Back Packages through the MED-Project website. If Covered Entities and Retail Pharmacies not participating as Mail-Back Distribution Locations request Mail-Back Packages the requests will be directed to the single coordinated website which equally distributes requests for Mail-Back Packages among approved Program Operators. Authorized Collectors can access or request materials and view step-by-step instructions and on-demand videos explaining how to service Collection Receptacles through the MED-Project website. Potential Authorized Collectors will be able to inquire about Program information and becoming an authorized Collection Site.

The MED-Project website will also link to the Department's Safe Medication Return website and contact information for the public to view information the Department may publish on its website regarding a list of all Covered Manufacturers not participating in a drug take-back program, in accordance with 246-480-030 WAC – Identification of covered manufacturers.

C. MED-Project Call Center

MED-Project has established a toll-free telephone number, 1-844-MED-PROJECT (1-844-633-7765), for Covered Entities to obtain information about accessing all Collection Sites, Collection Events, mail-back services, educational materials, and other aspects of the Program. Callers with medical emergencies are directed to call 911, and patients with medication-related questions are directed to contact their health care providers.

The call center provides information about:

- What is accepted and not accepted as covered drugs.
- Why and how to safely store and dispose of medication and discourage disposal in drains or the garbage.
- The single coordinated website.
- Disposal options.
- All Collection Sites, Mail-Back Distribution Locations, Retail Pharmacies providing Mail-Back Packages to Covered Entities, and Collection Events in the caller's specified ZIP code.
- Directions to the MED-Project website.
- How to request Mail-Back Packages.

Covered Entities and Retail Pharmacies can request Mail-Back Packages through the MED-Project call center. If Covered Entities or Retail Pharmacies call the MED-Project call center, requests for Mail-Back Packages will be taken using the single coordinated website which equally distributes requests for mail-back packages among approved Program Operators.

D. Public Promotional Printed Materials

In accordance with RCW 69.48.070(1)(e-f), MED-Project will make available on the MED-Project website and distribute upon request, public promotional printed materials to Retail Pharmacies, health care facilities, and other interested parties so they can provide these materials to Covered Entities. Materials will refer to the drug takeback system as "Safe Medication Return" and include the State common mark. The materials will use plain language and explanatory images to promote and explain the Program's collection services. This includes information on where and how to return Covered Drugs and identifying discouraged disposal practices. The materials will be made available to Covered Entities, including those with limited English proficiency. Materials will not include the MED-Project specific website or toll-free number. Distribution methods include providing material at the time of Collection Receptacle installation, when activating Mail-Back Distribution Locations and Retail Pharmacies, or by request on the MED-Project website or call center. Appendix K provides a sample of the materials.

E. Education and Outreach Strategy, Tactics, and Channels

The MED-Project education and outreach program will be designed to reach residents through a variety of media channels that will:

- Promote the proper management of Covered Drugs by residents and the collection of Covered Drugs through the Safe Medication Return Program.
- Promote the use of the Safe Medication Return Program so that residents understand where and how to use the Safe Medication Return Program.

MED-Project will employ paid media activities that effectively promote the Safe Medication Return Program and educate the public by:

- Driving awareness among the target audience (residents aged 18 and over).
- Implementing various marketing channels.
- Delivering consistent messaging.

Offline channels may also be incorporated, as necessary, to further enhance resident awareness. The ultimate media mix and channel distribution will be determined through a media planning process and may be subject to change or optimization during or between campaigns.

MED-Project's education and outreach program will include multiple and varied elements designed to promote the Program and educate residents. MED-Project has access to local and national media planning expertise and industry tools to optimize the effectiveness of each campaign and tactic.

MED-Project will continue outreach activities, with a goal of 50% cumulative reach annually targeted to state residents over the age of 18. MED-Project will focus outreach activities on digital tactics that offer the greatest scalability, targeting capabilities, and shortest path from interaction (click) to program utilization (find a location or mail-back request). In addition to digital tactics, other communication channels may be utilized to drive awareness of the Safe Medication Return Program when deemed necessary.

Campaign activities during a reporting period will be reported on in the annual report, with a focus on the delivery against the stated goal.

1. Digital Display

By utilizing digital display technology, MED-Project can effectively target and reach a wider audience across various devices, including desktop, mobile web, in-app, and tablets. This enables targeted banners to appear on websites that residents frequently visit.

2. Social Media

MED-Project will utilize social media to effectively reach residents and to help raise awareness of the Safe Medication Return Program. Posting on a variety of social media channels, MED-Project will use relevant and informative content that aligns with messaging on the other media channels.

Paid social media activity can significantly increase access to more residents, allowing MED-Project to target a larger audience than with organic social media content. Examples of paid social media include boosting stories, posts, reels, or other effective social content.

3. Press Release

MED-Project may issue press releases to target media outlets throughout the State to promote the use of the Safe Medication Return Program. In addition to distribution to media outlets, releases will be shared on the MED-Project website.

4. Audio Advertisements

Audio advertisements, including radio ads and digital audio ads on platforms like streaming services and podcasts, may be utilized as needed. Audio advertising can offer a wide reach as well as targeting capabilities including demographics, affinities, contextual relevance, geography and behavioral data to reach audiences. With the still growing popularity of digital audio platforms, audio advertisements can reach a large and diverse audience across different devices, including smartphones, tablets, computers, and smart speakers.

5. Broadcast Emails

MED-Project may use broadcast emails to promote the Safe Medication Return Program. This method amplifies word-of-mouth and social sharing to raise awareness. An email platform enables tailoring messages for different audiences, such as local health jurisdictions, community-based organizations, law enforcement agencies, and residents throughout the State.

VI. Goals

The goals of the Program are provided in Table 4. In estimating collection amount totals MED-Project used the total number of kiosks required to meet the service convenience goal to be 318 collection receptacles for 281 population centers. The total weight goal factored in the many variables that could affect the total collection weight. These factors include attrition of authorized collection sites, change of landscape, residents using medication as prescribed, and other government and market initiatives that could decrease the amount of unwanted medicine collected through the Safe Medication Return Program. As these variables continue to change, MED-Project may seek to revise its program goals.

Table 4: Program Goals

Goal Area	Goals
Collection Amounts	Strive to meet the service convenience goal with the primary method of collection being Collection Sites as established in RCW 69.48.050(2)(d).
	Strive to achieve a total collection amount of 50,000 pounds each year.
Public Awareness	MED-Project will continue outreach campaign activity with a goal of 50% cumulative reach annually targeted to state residents over the age of 18.

VII. Patient Privacy

Instructions at each Collection Site and with mail-back packages will inform residents that they should completely cross out, remove, or otherwise make unreadable all personally identifiable information on drug containers and packaging before depositing them in the Collection Receptacle or in a mail-back package. In cases where people follow the instructions, there will be no personally identifiable information.

In addition to Collection Receptacle signage, MED-Project public promotional and educational materials encourage residents to protect their information by ensuring that identifiable information is not present before depositing containers into Collection Receptacles. Examples of MED-Project signage and MED-Project webpages are available in Appendix F and Appendix I.

As added protection, the inner liners for the Collection Receptacle will be opaque rather than clear, in compliance with the DEA Rule. This will prevent anyone from seeing any information on the containers placed in the Collection Receptacles.

VIII. Change Management

Per RCW 69.48.050(5)(a), MED-Project will submit Plan changes that substantially alter Program operations to the Department in writing for prior written approval at least fifteen days before the changes are scheduled to occur. Changes requiring prior approval of the Department include changes to participating Covered Manufacturers, collection methods, achievement of the service convenience goal described in RCW 69.48.060, policies and procedures for handling Covered Drugs, education and promotion methods, and selection of disposal facilities.

Per RCW 69.48.050(5)(b), MED-Project will notify the Department at least seven days before implementing changes to the Program that do not substantially alter Program operations. Changes that do not substantially alter Program operations include Collection Site locations, methods for scheduling and locating periodic Collection Events, and methods for distributing Mail-Back Packages. MED-Project will notify the Department of changes to the Program's official point of contact no later than fifteen days after the change, and no later than ninety days after changes to ownership or contact information for participating Covered Manufacturers. Given the volume of anticipated changes in participating Covered Manufacturers, Collection Sites and Mail-Back Distribution Locations and because MED-Project may not have prior notice of such changes, MED-Project will notify the Department of changes in participating Covered Manufacturers, Collection Sites, and Mail-Back Distribution Locations in a monthly report as addressed in Section XI.B.

IX. Compliance with Applicable Laws

MED-Project will require entities that sign agreements such as Vendors, Authorized Collectors, Collection Sites, and Mail-Back Distribution Locations comply with all applicable laws, regulations, and other legal requirements. The Program requires that Vendor maintain policies and procedures to be followed by persons handling Covered Drugs collected under the Program for safety, security, and compliance with all applicable laws, regulations, and other legal requirements.

Authorized Collectors and Collection Sites must comply with applicable provisions of chapters 70A.205 and 70A.300 RCW, including rules adopted pursuant to those chapters that establish collection and transportation standards, and federal laws and regulations governing the handling of Covered Drugs, including DEA regulations.

The Plan is designed so all entities participating in the Program shall follow all applicable laws, regulations, and other legal requirements including, but not limited to, the regulatory programs listed in Table 5.

Table 5: Regulatory Compliance Requirements

Regulatory Program	Responsible Entity	Citation	Regulatory Level
Controlled Substances Act and DEA Implementing Regulations	Authorized Collectors, Collection Sites, and Vendor	E.g., 21 USC §§ 801- 971 and DEA Rule § 1317	Federal
United States Department of Transportation Hazardous Materials Regulation	Authorized Collectors, Collection Sites, and Vendor	E.g., 49 CFR Parts 100 To 185	Federal
Washington State Pharmacy Quality Assurance Commission	Authorized Collectors and Collection Sites	E.g., DEA Rule § 1317 and 246-869- 130 WAC	State
State of Washington Solid Waste Management Program	MED-Project, Authorized Collectors, Collection Sites, and Vendor	E.g., Chapter 70A.205 RCW and Chapter 173-350 WAC	State
State of Washington Hazardous Waste and Toxics Reduction Program	MED-Project, Authorized Collectors, Collection Sites, and Vendor	E.g., Chapter 70A.300 RCW and Chapter 173-303 WAC	State
State of Washington Safe Medication Return Program	MED-Project	E.g., Chapter 69.48 RCW and Chapter 246-480 WAC	State

A. Policies and Procedures

MED-Project contracts and agreements with Vendor(s), Authorized Collectors, Collection Sites, Mail-Back Distribution Locations, and Retail Pharmacies providing Mail-Back Packages to Covered Entities require that all entities participating in the program comply with all applicable laws, regulations, and other legal requirement per RCW 69.48.050(2)(g).

MED-Project contracts for vendors who handle Covered Drugs collected under the Program will generally require that Vendor:

- Follow all applicable laws, regulations, and other legal requirements.
- Maintain all professional and governmental permits, licenses, consents, authorizations and certifications required by applicable laws for the performance of Program services.
- Provide Program services in timely, professional and commercially diligent manner according to generally accepted industry and professional standards.
- Provide certification that all applicable employee trainings are complete.
- Complies with industry-standard safety and security procedures.
- Is not under any action, suit, or proceeding before or by any court or governmental authority pending which could materially affect the Vendor's performance to provide the Program services and the Vendor shall immediately notify MED-Project of any such action.
- Obtain written notice for pre-approval before changing transporters or disposal facilities.
- Use commercially reasonable measures to prevent theft or diversion of Covered Drugs.
- Report safety, security or other procedural deviations.
- Maintain comprehensive information security programs and will notify MED-Project in the event of a data breach.
- Maintain complete and accurate records, such as books, documents, accounting procedures and practices. MED-Project may audit such records.
- Provide written reports related to the Program services.

Agreements with Authorized Collectors generally require that the Authorized Collector will:

- Maintain compliance with all applicable laws regarding the collection, handling, processing, and disposal of Covered Drugs.
- Possess all required authorization to enter into an agreement for Program services.
- Identify a responsible manager and provide qualified staff.
- Have qualified staff unlock and lock the Collection Receptacle.
- Complete documentation under all applicable laws for Collection Receptacle delivery, installation, or removal and for Covered Drug collection, storage, transportation, or disposal.
- Securely maintain any documentation required under the Program.
- Provide the documentation upon request to MED-Project.

- Make the Collection Receptacle available to the public during business hours unless there is a safety, security, service, maintenance, or other condition requiring the Authorized Collector to lock the Collection Receptacle.
- Promptly notify MED-Project when collection, maintenance, or inner liner supplies are needed.
- Promptly notify MED-Project of changes in normal Collection Receptacle operation, including any date and time the Collection Receptacle was unavailable to the public during business hours and the reasons for such unavailability.
- Maintain training records physically or electronically on-site and make such records available to an authorized official or MED-Project within a reasonable time upon request.
- Collect and store Covered Drugs and cause the transportation and disposal of Covered Drugs.
- Establish and implement procedures limiting Collection Receptacle key access to qualified staff.
- Lock the Collection Receptacle and cooperate with MED-Project for Collection Receptacle removal upon termination of the agreement.
- Report any theft, unexplained loss, or diversion of Covered Drugs, safety or security problem, or environmental incident.

Mail-Back Distribution Locations providing Mail-Back Packages to Covered Entities must sign an agreement with MED-Project. Mail-Back Distribution Location agreements will generally:

- Require distribution of Mail-Back Packages to Covered Entities in compliance with all applicable laws, regulations, and other legal requirements.
- Require that Mail-Back Packages be made available to Covered Entities free of charge (for example, via a request by a Covered Entity to a pharmacist at a Retail Pharmacy).
- Provide a process for site to request additional Mail-Back Packages.
- Prohibit disposal of commercial waste through Mail-Back Packages.
- Require Mail-Back Packages be stored in a secure area and labels will not be modified or removed.
- Require Mail-Back Packages be stored to avoid damage or package compromise.
- Prohibit collection of resident personal information.
- Prohibit handling, collection, or storing Mail-Back Packages containing Covered Drugs from Covered Entities and prohibit shipping Mail-Back Packages on behalf of Covered Entities.
- Complete documentation under all applicable laws and by MED-Project for distributing Mail-Back Packages.
- Securely maintain any documentation required under the Program.
- Provide the documentation upon request to MED-Project.

Agreements for Collection Events require that law enforcement will generally:

 Maintain compliance with all applicable laws regarding the collection, handling, processing, and disposal of Covered Drugs.

- Possess all required authorization to enter into an agreement for Program services.
- Collect and store Covered Drugs and cause the transportation and disposal of Covered Drugs.
- Report any theft, unexplained loss, or diversion of Covered Drugs, safety or security problem, or environmental incident.

B. DEA Controlled Substances Act and Implementing Regulations

Under the DEA Rule, collection of controlled substances is generally limited to Schedule II, III, IV, or V controlled substances that are lawfully possessed by an ultimate user. See DEA Rule §§ 1317.75(b); 1317.70(b). Schedule I controlled substances, controlled substances that are not lawfully possessed, and other illicit or dangerous substances will not be collected. Additionally, as these provisions of the DEA Rule limit collection of controlled substances to those lawfully possessed by an ultimate user or certain other persons, pharmacies are prohibited from disposing of their own inventory or stock through the Program. See id.; see also § 1317.05.

The DEA Rule provides that law enforcement agencies can continue to accept controlled substances for disposal, however, the DEA Rule also provides that Retail Pharmacies, reverse distributors, hospitals/clinics with on-site pharmacies, narcotic treatment programs, and certain other entities, can register with the DEA as "collectors" and become authorized at their discretion on a voluntary basis to accept controlled substances.

The DEA Rule:

- Provides for the collection of controlled substances at any collection site included under 21 CFR 1317.40(b).
- Provides for the use of mail-back programs to collect controlled substances.
- Establishes detailed collection, recordkeeping, security, and other measures for all approved collection methods.
- Provides that all collected pharmaceutical products be destroyed so that the products are rendered non-retrievable.

Controlled substances collected pursuant to the Program may be commingled with non-controlled substances at Collection Sites and in Standard Mail-Back Packages per the DEA Rule. See §§ 1317.75(b); 1317.70(b).

1. DEA Registration Modification

Pursuant to DEA Rule. § 1301.51(b), pharmacies and narcotic treatment programs must modify their registrations if they want to become Authorized Collectors by submitting a request to the DEA or online at www.DEAdiversion.usdoj.gov. This request must contain:

- The registrant's name, address, and registration number (as printed on the registration certificate).
- The collection methods the registrant intends to conduct.

A signature in accordance with § 1301.13(j).

MED-Project will consult with participating pharmacies, as requested, regarding how to modify DEA registrations to become Authorized Collectors.

2. Collection Receptacles

Pursuant to DEA Rule § 1317.75(e) and (f), Collection Receptacles at pharmacies, hospitals and clinics with on-site pharmacies, narcotic treatment programs, and long-term care facilities will:

- Be securely fastened to a permanent structure.
- Be securely locked, substantially constructed containers with a permanent outer container and removable inner liner.
- Include a small opening in the outer container that allows contents to be added to the inner liner but does not allow removal of the inner liner's contents.
- Prominently display a sign indicating that only Schedule II-V controlled and noncontrolled substances are acceptable to be placed in the Collection Receptacle.
- Except at a narcotic treatment program, have the small opening in the outer container locked or made inaccessible to the public when a Collection Site employee is not present, or when the Collection Receptacle is not being monitored by long-term care facility employees. DEA Rule § 1317.75(f).

The proposed design of the pharmacy Collection Receptacle³ satisfies these requirements through heavy gauge steel; multiple locking mechanisms, including:

- A locking mechanism on the drop-slot.
- A tamper-resistant drop-slot.
- Commercial hinges.

The locking mechanism on the drop-slot will prevent Collection Receptacle overflow once the Collection Site locks the container upon reaching its maximum level. MED-Project pharmacy Collection Receptacles will come with signage required under the DEA Rule⁴.

Under DEA Rule § 1317.60(a), Collection Receptacle inner liners will:

- Be waterproof, tamper-evident, and tear-resistant.
- Be removable and sealable immediately upon removal without emptying or touching Collection Receptacle contents.
- Make the contents of the inner liner not viewable from the outside when sealed.
- Clearly indicate the size of the inner liner.
- Bear a permanent, unique identifier for tracking purposes.

³ MED-Project will coordinate with other drug take-back programs to develop clear, standardized instructions with a consistent design for Covered Entities on the use of Collection Receptacles.

⁴ Specifically, as required under § 1317.75(e)(4), all Collection Receptacles will prominently display a sign stating that: "Only Schedule II-V controlled and non-controlled substances that are lawfully possessed by the ultimate user are acceptable to be placed in the kiosk. Schedule I controlled substances, illicit or dangerous substances, and any controlled substances not lawfully possessed by the ultimate user may not be placed in the kiosk."

While the DEA Rule does not require law enforcement agency Collection Receptacles to meet these same requirements, MED-Project will offer these Collection Receptacles and inner liners to law enforcement agencies.

Section 1317.75(g) provides that pharmacy Collection Receptacle inner liner installation or removal shall be performed "by or under the supervision of at least two employees of the authorized collector." Section 1317.60 limits inner liner access to employees of the collector and requires two employees to seal the inner liner upon its removal from the permanent outer container.

The pharmacy Collection Receptacle sealed inner liner must not be opened, x-rayed, analyzed, or otherwise penetrated. DEA Rule § 1317.60(c). Section 1317.75(c) prohibits the counting, sorting, inventorying, or individual handling of any substances deposited into a pharmacy Collection Receptacle.

Authorized Collectors participating in the Program shall keep all records required under the DEA Rule, including those required under §§ 1304 and 1317.35. At Collection Sites that are law enforcement agencies, Vendor and the law enforcement agency shall keep any records of removal, storage, or destruction of the collected Covered Drugs in a manner consistent with the law enforcement agency's recordkeeping requirements for illicit controlled substances evidence per DEA Rule § 1317.35.

The law enforcement agency shall store Covered Drugs in a manner to prevent the diversion of controlled substances consistent with its standard procedures for storing illicit controlled substances. Collected Covered Drugs shall be transferred to the disposal facility in a manner to prevent the diversion of Covered Drugs and consistent with the law enforcement agency's standard procedures for transferring illicit controlled substances.

3. Mail-Back Services

Per DEA Rule § 1317.70(c), Standard Mail-Back Packages will be:

- Nondescript with no markings or information potentially indicating that they contain Covered Drugs, including controlled substances.
- Water and spill-proof, tamper-evident, tear-resistant, and sealable.
- Pre-addressed with and delivered to Vendor's registered address.
- Provided with a unique identifier enabling tracking.

When using mail-back services, Patients and persons lawfully entitled to dispose of a Patient/decedent's property will not be required to provide any personally identifiable information. See § 1317.70(d).

Per § 1317.70(e), Vendor will only accept Standard Mail-Back Packages provided by Vendor or packages lawfully forwarded under DEA requirements. Within three business days of receipt, Vendor will notify the DEA if it receives Standard Mail-Back Packages likely containing controlled substances that Vendor did not make available or did not agree to receive per DEA requirements.

Per § 1317.70(f), when Standard Mail-Back Packages are received, only Vendor employees will handle the Standard Mail-Back Packages; Standard Mail-Back

Packages will not be opened, x-rayed, analyzed, or otherwise penetrated upon receipt by Vendor.

If Vendor needs to store filled Standard Mail-Back Packages, they will follow all applicable security requirements of DEA Rule Section 1317, including securely storing Covered Drugs constant with the requirements for Schedule II controlled substances.

All Covered Drugs will be destroyed promptly. Vendor will keep all records required under the DEA Rule, including those identified in § 1304.22(f).

4. Collection Events

At least one law enforcement officer will oversee the collection at all Collection Events pursuant to DEA Rule § 1317.65(a), (b). Law enforcement officers shall maintain control and custody of all Covered Drugs collected at Collection Events from collection until the Covered Drugs are securely transferred, stored, or destroyed, as required by DEA Rule § 1317.65(b). Only ultimate users and persons authorized to dispose of an ultimate user decedent's property in lawful possession of controlled substances in Schedules II-V may transfer these substances to law enforcement during the Collection Event. DEA Rule § 1317.65(e). No other person shall handle controlled substances at Collection Events under DEA Rule § 1317.65(e); however, Vendor may assist law enforcement in the collection of Covered Drugs at Collection Events. Disposal of Controlled Substances, 79 Fed. Reg. 53520, 53539 (Sept. 9, 2014).

Vendor and law enforcement shall maintain all records of removal, storage, or destruction of the collected Covered Drugs in a manner consistent with the law enforcement agency's recordkeeping requirements for illicit controlled substances evidence pursuant to DEA Rule § 1317.35. Any collected Covered Drugs shall be stored to prevent the diversion of controlled substances and consistent with the law enforcement agency's standard procedures for storing illicit controlled substances. Any storage of Covered Drugs by Vendor shall also comply with the applicable security requirements of DEA Rule §§ 1301 and 1317, including the requirement that Covered Drugs be securely stored in a manner consistent with the security requirements for Schedule II controlled substances.

C. State of Washington Waste Management Program

MED-Project, Vendor, and other entities participating in the Program shall comply with any applicable provisions of the State's waste management program. MED-Project will require Vendor to comply with applicable State waste management program requirements. MED-Project will monitor Vendor compliance through reporting and, on an as-needed basis, audits. MED-Project will also require other participating entities to comply with State waste management requirements to the extent applicable. MED-Project will monitor Collection Sites through inspection reports.

D. Washington State Pharmacy Quality Assurance Commission

If WSPQAC establishes such rules regarding the Program, MED-Project will alert participating Collection Sites that are licensed pharmacies. MED-Project requires

participating entities to comply with all applicable laws, regulations, and other legal requirements. MED-Project will monitor Vendor compliance with WSPQAC rules regarding the Program through reporting and, on an as-needed basis, audits. MED-Project will monitor Collection Site compliance with WSPQAC rules regarding the Program through annual inspections.

X. Proprietary Information

Proprietary information submitted to the Department as a part of the Program is exempt from public disclosure under RCW 42.56.270. MED-Project will identify, in writing, proprietary information when submitting information to the Department.

MED-Project acknowledges that the Department may use and disclose proprietary information in summary or aggregated form that does not directly or indirectly identify proprietary information of a transporter, individual Covered Manufacturer, or MED-Project.

MED-Project may seek to enjoin the release of information provided under RCW 42.56.540 upon notification that the Department has received a request for disclosure under chapter 42.56 RCW that includes information identified by MED-Project as proprietary.

XI. Reporting

A. Annual Reporting

By July 1st of each year, MED-Project will submit to the Department a report describing implementation of the Program during the previous calendar year. The annual report will include all of the requirements of RCW 69.48.100 and 246-480-080 WAC.

Within thirty calendar days after each annual period of operation, MED-Project will submit an annual collection amount report to the Department that provides the total amount by weight of Covered Drugs collected from each Collection Site during the prior calendar year. Due to the timing of when MED-Project receives collection data from Vendor, the report will contain final collection data for the first three quarters of the previous calendar year and preliminary data for the fourth quarter of the previous calendar year. MED-Project will submit final collection data for the fourth quarter of the previous calendar year within 60 calendar days after each calendar year of operation.

B. Monthly Reporting

MED-Project will notify the Department of changes in participating Covered Manufacturers by providing the Department an updated list of participating Covered Manufacturers every calendar month. Specifically, MED-Project will make available a Covered Manufacturer list every calendar month by the 15th calendar day of each month.

MED-Project will notify the Department of changes in participating Collection Sites by providing an updated list of participating Collection Sites every calendar month by the 15th calendar day of each month.

MED-Project will notify the Department of changes in participating Mail-Back Distribution Locations by providing an updated list of participating Mail-Back Distribution Locations every calendar month by the 15th calendar day of each month.

If MED-Project encounters a safety or security problem during collection, transportation, or disposal of Covered Drugs, MED-Project will notify the Department every calendar month by the 15th calendar day of each month.

XII. Program Costs and Fees

Through agreements with Authorized Collectors and Vendor, MED-Project will pay all administrative and operational costs associated with establishing and implementing the Program. Administrative and operational costs will be consistent with RCW 60.48.090(1).

Appendix L provides MED Project's budget estimate for the Program in accordance with 246-480-040(5) WAC. The budget covers a 12-month calendar period of anticipated operations from January 1, 2025 through December 31, 2025. Program spend will be reported in the report described in Section X. Administrative and operational costs of the Program will be apportioned among participating Covered Manufacturers in a fair and reasonable manner. The estimated 2025 Program budget for total cash expenditures includes forecasts, projections, and other predictive statements that represent MED-Project's assumptions and expectations in light of currently available information.

Appendix A

Participating Covered Manufacturers as Reported on February 14, 2025

Upon Plan approval, MED-Project will provide the list of Covered Manufacturers participating in the Program every calendar month.

Appendix H Terms of Coordination

MED-PROJECT USA AND INMAR INTELLIGENCE TERMS OF COORDINATION FOR SINGLE WEBSITE, SINGLE TOLL-FREE TELEPHONE NUMBER, AND COMMON MARK IN WASHINGTON

This statement of principles provides the terms of coordination for a website and a toll-free telephone number, as required by the Washington Department of Health (the "Department"), RCW 69.48.070, and for the common program decal, emblem, or logo ("Common Mark") provision in the MED-Project USA ("MED-Project ") and Inmar Intelligence ("Inmar") Drug Take-Back Programs. These terms have been agreed upon by MED-Project and Inmar, operators of Drug Take-Back Programs approved by the Department (and hereinafter "Program Operators") in Washington.

A. Antitrust: The following Compliance Statement will be read at all meetings and used in all agendas and meeting notes:

MED-Project and Inmar have policies of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors – including MED-Project and Inmar – from making agreements or engaging in actions that could result in unreasonable restraint of trade. Consequently, when engaging in any discussions between them, MED-Project and Inmar must avoid discussing any of the following topics: prices, fees, rates, profit margins, or other terms or conditions of sale; allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers, or other third parties, or topics that may lead MED-Project or Inmar to not deal with a particular supplier, customer, or third party. If any participant senses that the meeting is drifting into any of these areas, it should notify the other participants and terminate the meeting

B. Website:

- 1. Program Operators agree to utilize the URL www.medtakebackwashington.org as the single website with a neutrally branded landing page for their approved Washington Drug Take-Back Programs.
- **2**. Program Operators will select, and separately contract with, a third-party vendor to develop and host the single website with a neutrally branded landing page identified in the preceding paragraph.
- 3. The single website will allow Covered Entities to contact Program Operators about their Drug Take-Back Programs, acquire information about the location of Collection Sites and Mail-Back Distribution Locations, request mail-back services, and learn the

dates and locations of scheduled Collection Events. Program Operators will update their list of Collection Sites, Mail-Back Distribution Locations, and scheduled Collection Events at least quarterly.

- **4.** Covered Entities and retail pharmacies offering to distribute prepaid, preaddressed mail-back envelopes for the Drug Take-Back Program will be able to navigate from the neutrally branded landing page to separate websites hosted by each Program Operator, to obtain such prepaid, preaddressed mail-back envelopes.
- **5.**Program Operators agree to direct Covered Entities who visit their organizational website landing pages to the URL www.medtakebackwashington.org
- 6. The single website will utilize a third-party translation tool.

Toll-Free Telephone Number/Call Center:

- **1.** Program Operators will select, and separately contract with, a third-party call center vendor to implement and administer the toll-free telephone number and initially respond to calls. Program Operators agree to utilize the neutral toll-free telephone number (844) 482-5322 or (844) 4-TAKEBACK.
- 2. Calls from Covered Entities for mail-back services will be directed to Program Operators by the call center vendor by allowing for callers to select from a list of Program Operators via an interactive voice response (IVR) system or similar system. Calls from retail pharmacies offering to distribute prepaid, preaddressed mail-back envelopes for a Drug Take-Back Program will be similarly directed to Program Operators.
- **3.** Direct calls to the Program Operators' own toll-free numbers will be routed to the neutral toll-free telephone number.

D. Common Mark:

1. Program Operators agree to utilize the Common Mark (below) which can be used on secure collection receptacles and the neutrally branded website, as appropriate.

Safe Storage Information

It is important to take medication as prescribed by your health care provider and as indicated on the label or packaging.

Always be sure to store medicine securely to prevent accidental ingestion or misuse by others, especially children. If you have expired or unwanted household medication, proper storage and disposal are easy.

To protect your family, pets, and community, follow these instructions for secure storage and safe disposal.

Use as Directed

Use medication as directed. If there are any specific instructions on the label, package, or package insert, please follow those. If you have any questions, ask your healthcare providers.

Store Securely

Follow storage instructions as provided on medicine labels and on the information accompanying medicine or sharps. Keep medication in a secure location safely away from people or pets that might come in contact with them.

Keep medications out of reach from pets. Dogs, cats, and other pets can easily ingest medications left within their reach. Always store medications securely, away from any areas accessible to pets.

Dispose Safely

Check your medicine cabinet and remove all expired and unwanted medication. If you do not know if a drug is still safe, check with your pharmacist. Count medication to keep track of amounts. Drop off or mail back expired or unwanted medications for safe disposal.

Please separate and remove any items and medication that are not accepted before disposing.

Do not place medicine in the trash or recycling and never flush them down the sink or toilet. The Washington Department of Health has determined that the Safe Medication Return Program is a readily available drug take back option.

To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of

¿Qué se debe hacer con un medicamento caducado o no deseado?

Los medicamentos ayudan a tratar enfermedades, controlar afecciones crónicas y mejorar la salud y el bienestar de millones de estadounidenses. Cumplir con su rutina de medicamentos significa tomar su medicamento según las indicaciones de su proveedor de atención médica o según lo indicado en la etiqueta o el envase: la dosis correcta, en el momento correcto, de la manera correcta. Luego, guárdelo protegido y elimínelo de manera segura para evitar la ingestión accidental o el mal uso por parte de otras personas, incluidos niños y mascotas.

Los programas y servicios de MED-Project hacen que la eliminación de medicamentos sea segura, gratuita y conveniente para usted.

Ingerir según lo indicado

Ingiera el medicamento según las indicaciones. Si hay instrucciones específicas para la eliminación en la etiqueta, el envase o el prospecto, siga esas instrucciones. Si tiene alguna pregunta, consulte a sus proveedores de atención médica.

Almacenamiento protegido

Siga las instrucciones de almacenamiento provistas en las etiquetas de los medicamentos y en la información que los acompaña. Mantenga los medicamentos en un lugar protegido, lejos de personas o mascotas.

Eliminación segura

Revise su botiquín y elimine todos los medicamentos caducados y no deseados. Si no sabe si un medicamento sigue siendo seguro, consulte con su farmacéutico. Cuente los medicamentos para realizar un seguimiento de las cantidades. Deje o devuelva por correo los medicamentos caducados o no deseados para su eliminación segura.

Eliminación de medicamentos domésticos

MED-Project ofrece opciones seguras, gratuitas y convenientes para eliminar medicamentos domésticos en su comunidad

Buzones bien ubicados disponibles en su área. Para encontrar un buzón cercano, visite la sección Buscar una ubicación de medtakebackwashington.org.

Devolución por correo

Los paquetes de devolución por correo están disponibles en su área. Todos los paquetes de devolución por correo tienen la dirección y el franqueo prepagos. Para solicitar un paquete de devolución por correo, visite la sección Devolución por

correo de medtakebackwashington.org.

MED-Project puede tener distribución de paquetes de devolución por correo o sitios informativos en su área.

Para obtener más información sobre las opciones de eliminación cercanas, visite medtakebackwashington.org.

Para proteger su privacidad, se les recuerda a los pacientes que eliminen toda la información de identificación personal de las etiquetas o los envases de los medicamentos antes de desechar los medicamentos no deseados.

Appendix L

Budget Estimate for Program Costs

The Program has developed a budget based on the assumptions covered in Section XII.

The Program budget for total cash expenditures includes forecasts, projections and other predictive statements that represent MED-Project's assumptions and expectations in light of currently available information. This Program budget is based on MED-Project's current knowledge of performance, industry trends, and other factors, and involves risks, variables, and uncertainties. MED-Project's actual performance results may differ from those projected in the Program budget. No guarantee is implied as to the accuracy of the Program budget.

In accordance with RCW 69.48.090(1) and WAC 246-480-040(5)(a-c), MED-Project's budget is summarized in Table 6:

rabio or maar rojoot adagot admidto	
	Year ⁵ :
	2025
Administrative Costs ⁶	\$ 424,236.84
Collection and Disposal Costs ⁷	\$ 1,819,146.67
Communication Costs ⁸	\$ 280,704.98
Total Program Costs	\$ 2,524,088.49

Table 6: MED-Project Budget Estimates

- Collection, transportation, and disposal of drugs.
- Purchase, maintenance, and replacement of collection receptacles.
- Compensation of authorized collectors, if separate from personnel costs covered in the Administrative Costs above.
- Contracted and employed personnel costs associated with collection and disposal.
- Production, distribution, and postage of mailers.

⁸ Communication Costs takes into account:

- Advertising.
- Marketing.
- Contracted and employed personnel costs associated with communication.
- Website creation and maintenance.
- Operation of a toll-free call center.

⁵ The budget covers a 12-month calendar period of anticipated operations for the 2025 calendar year. Program spend will be reported in the report described in Section X.

⁶ Administrative Costs takes into account:

Contracted and employed personnel overhead costs.

Legal fees.

Local and state business licensing fees.

Local, state, and federal taxes.

Property costs, including rentals.

Utilities, phone, and internet.

General equipment and supplies.

⁷ Collection and Disposal Costs takes into account:
