At this time, only the owning physician, Richard Baxter, would use the ASC. Future partners
or employees may have access to the ASC. Specific physician credentialing information and
practice association is below.

Name Credential Status Practice Status
Richard Alan Baxter Active 100% Owner

- The proposed ASC would be operated under the corporation of Baxter Plastic Surgery, PLLC.
- Procedures to be performed at the ASC are those typically associated with cosmetic surgery, such as breast augmentation, liposuction, and face lifts. An explanation of the types of procedures was provided in the application.
- The proposed ASC would not be operated under a management agreement.

### **CONCLUSION**

Based on the totality of information considered, the department concludes the proposed ASC would be exempt from Certificate of Need review. This exemption is not transferable and the conclusions reached concerning this proposed ASC are based on the facts about this facility and it should not be assumed the department would reach the same conclusion in future exemption requests for other future ASCs.

If changes are made in the operation or ownership of this proposed ASC, the ASC may no longer be eligible for this exemption. In that case, prior Certificate of Need review and approval or new exemption would be required. Examples of such changes include the following. This list is not intended to be all inclusive.

- The scope of services is expanded to include services subject to Certificate of Need review under the provisions of WAC 246-310-020.
- The provision of any procedure as identified under WAC 246-310-705(4).
- The ASC is operated under a management agreement.
- The ASC is organized as a separate legal entity from the practice.
- The ASC is moved to a different site than identified in the exemption application.
- Use of the ASC is extended to any physician who is not a member/owner or employed by Baxter Plastic Surgery, PLLC.
- The ASC ceases operations and then chooses to resume services as an ASC.
- The ASC or the practice is purchased or leased.
- ASC patients are routinely transferred from the ASC for observation care at one of the area's hospitals.
