

Why Would I Document a Patient's Eligibility Status?

Providers enrolled in the Washington State Childhood Vaccine Program and/or the Adult Vaccine Program are required to screen and document patient eligibility status for every vaccine administered for patients of all ages. Providers may document the eligibility status of their patients in an electronic health record, the IIS, or a paper chart. The eligibility status appears in the **VFC Status** row of the **Patient Demographics** page and the **Vaccination Detail** page in the IIS. You can find more information about each of the patient eligibility status options at the end of this guide.

How Can I View a Patient's Eligibility Status?

To view the patient's status on the **Patient Demographics** page:

- 1. Select **Search/Add** under the **Patient** heading in the left navigation menu.
- 2. Enter patient search criteria on the page and click Search.
- 3. Select the patient from Patient Search Results.
- 4. View the patient's status in the VFC Status row.

Sex	FEMALE
Mother Maiden Nm	
VFC status	VFC eligible— American Indian/Alaskan Native

To view the patient's status on the **Vaccination/Medicine Detail** page, follow the steps above to search for a patient, then:

- 1. Click on either View/Add or Summary under the Vaccinations heading in the left menu.
- 2. Click on the date next to a vaccine name to open the Vaccination/Medicine Detail page.
- 3. The VFC Status row appears near the middle of the page.

Vaccination/Medicine Detail

How Can I Document Patient Eligibility Status?

When Entering a Vaccine:

1. When entering a vaccination for a patient directly in the IIS, you will be prompted to update the VFC Eligibility status. Choose the appropriate eligibility from the drop-down menu and select Continue.

VFC Eligibility Update			
Current VFC Status: VFC eligible— American Indian/Alaskan Native			
Update VFC Eligibility	select	¥	
			Cancel Continue

 After selecting the patient's eligibility status, the Vaccination Detail Add page will open and you will need to enter additional details for the administered vaccine. The eligibility status that you chose will appear on the vaccine record. The new eligibility status will display in the Vaccination Detail Edit page. Select the Submit Changes button to save your changes. This will update the eligibility status for the vaccine and on the Patient Demographics page.

How Do I Update VFC Eligibility Status in the Patient Demographic Page?

- 1. From the **Patient Demographics** page, click the **Edit** button.
- 2. Select the appropriate VFC status from the drop down box.
- 3. Click the **Save** button at the bottom of the screen to update the patient's status and return to the **Patient Demographics** page. Confirm the status saved correctly.
